Yes Bank FPO subscribed 95%, ₹14,267 cr raised

FE BUREAU
Mumbai, July 17

PRIVATE SECTOR LENDER
Yes Bank has managed to raise ₹14,267 crore through its follow-on public offer (FPO), implying a 95% subscription of the issue of ₹15,000 crore.

The issue has achieved the minimum required subscription of 90% of its total size to sail through, the lender said. The institutional investors' portion got oversubscribed by 1.4 times. The non-subscribed portion of the FPO will be allotted to SBI Capital Markets, who had agreed to underwrite Rs 3,000 crore worth of shares at a price equal to the lowest end of the price band. The FPO had a price band of ₹12-13 per share.

As per market sources, 27 institutions bid for the FPO, including LIC, State Bank of India and Punjab National

Bank. The retail portion, however, could only get bids for 47%.

Other investors in the offer included IIFL, Edelweiss, Bajaj Allianz, HDFC Life, HDFC MF, Union Bank, Bajaj Holdings and Avenida Wealth Management. The company had earlier raised 14,098 crore from anchor investors at ₹12 per share.

Forex reserves at record \$516 bn

FE BUREAU
Mumbai, June 11

FOREX RESERVES ROSE \$3.1 billion to hit a record high of \$516.36 billion last week ending June 10, according to the latest data from the Reserve Bank of India (RBI). In the week prior to that, forex reserves stood at \$513.5 billion.

Foreign currency assets (FCAs), which form a key component of reserves, rose \$2.372 billion to \$475.63 billion. FCAs are maintained in major currencies like the US dollar, euro, pound sterling and Japanese yen. Movement in the FCAs occurs mainly on account of purchase or sale of foreign exchange by the RBI, income arising out of the deployment of foreign exchange reserves, external aid receipts of the government and revaluation of assets.

Gold, another component of reserves, rose by \$712 million to \$34.729 billion. Special drawing rights (SDRs) from the IMF increased \$5 million to \$1,453 billion while reserve position with the IMF increased \$19 million to \$45.43 billion.

A BoFA Securities report dated July 13 estimates that the RBI should be able to sell \$50 billion of forex to protect the rupee, and even after that the export cover for over 12 months would be retained.

ICICI Lombard reports ₹398-cr net profit in Q1

FE BUREAU
Mumbai, July 17

ICICI LOMBARD GENERAL Insurance reported a net profit of ₹398 crore for the first quarter of the current fiscal, compared with ₹310 crore in the corresponding quarter last year, a rise of 28.5%.

Gross direct premiums income (GDI) came down in Q1, but the company witnessed improved underwriting performance.

GDPI of ICICI Lombard General Insurance stood at ₹3,302 crore in Q1, compared with ₹3,487 crore in the same period last year, down 5.3%. However, excluding the crop segment, it decreased to ₹3,274 crore in Q1FY21, compared with ₹3,488 crore in Q1FY20, registering a de-growth of 6.2%.

According to a press release issued by the company, the de-growth across the industry was mainly due to Covid-19 pandemic.

However, the underwriting profit stood at ₹38.16 crore, compared to an underwriting loss of ₹44.93 crore for the quarter ended June 2019.

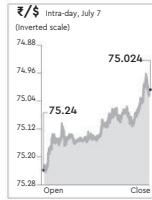

According to the filings with the BSE, ICICI Lombard General Insurance has seen underwriting profits in motor and miscellaneous group and corporate segments in first quarter of current fiscal. When claims paid are less than the premium collected, an insurance company reports underwriting profits.

The combined ratio of the company stood at 99.7% in Q1, compared to 100.4% in the year-ago period, primarily driven by lower reinsurance losses incurred due to catastrophic events.

"Combined ratio was 98.4% in Q1 FY2021, excluding the impact of cyclone Amphan and Nisarga of Rs 31 crore, compared to 99.7% in Q1 FY2020 excluding the impact of cyclone Fani of ₹16 crore," the release said.

Covid-19 pandemic, 99.7% in Q1, compared to 100.4% in the year-ago period, primarily driven by lower reinsurance losses incurred due to catastrophic events. "Combined ratio was 98.4% in Q1 FY2021, excluding the impact of cyclone Amphan and Nisarga of Rs 31 crore, compared to 99.7% in Q1 FY2020 excluding the impact of cyclone Fani of ₹16 crore," the release said.

Rupee gains 16 paise to 75.02 vs \$

PRESS TRUST OF INDIA
Mumbai, July 17

THE RUPEE APPRECIATED 1.6% to close at 75.02 against the US dollar on Friday, tracking gains in domestic equities and lower crude oil prices. On the weekly basis, the domestic currency gained 18 paise.

At the interbank forex market, the rupee opened on a weak note but soon recovered the losses and finally settled for the day at 75.02 against the US dollar, gaining 16 paise over its previous close.

Meanwhile, the dollar index, which gauges the greenback's strength against a basket of six currencies, fell 0.29% to 96.06. Brent crude futures, the global oil benchmark, fell 0.52% to \$43.13 per barrel.

"Rupee gained this week following a weaker dollar and strength in domestic equities. The price action in rupee is mirrored with the risk on sentiments. Spot USD/INR managers to end the week slightly above 75 levels. We could see the level of 74.50 with upside resistance remaining around 75.60," said Devarsh Vakil, deputy head, retail research, HDFC Securities.

'Covid may improve accuracy of Indian earnings analysts'

RONOJOY MAZUMDAR
Mumbai, July 17

COVID-19 MAY HELP improve the accuracy of India's analysts, who are guilty of overrating the nation's earnings potential for years, ICICI Securities said. It said the consensus one-year forward forecast for earnings per share on the Nifty 50 has been overestimated by about 20% on an average for FY14. The discrepancy may reduce as a bleak economic outlook in the wake of the virus outbreak is prompting analysts to scale back their predictions, Vinod Karki and Siddharth Gupta of ICICI wrote in a note on Friday.

Analysts have slashed their forward earnings estimate for the Nifty for the current fiscal by 30% so far. Similar cuts were seen when optimists turned into bearish during the financial crisis, which led to the estimation error being reduced to zero by 2010, Karki and Gupta noted.

The same dynamic could play out amid the pandemic, bringing estimates closer to reality. "Behavioural post-GFC indicates estimation error could reduce significantly, assuming the base case of an economic revival in FY22," they wrote.

Companies saw profits slump 53% in the quarter ended March, while the consensus estimate was for a 7.4% gain.

Bharat Bond ETF second series raises ₹10,000 cr

FE BUREAU
New Delhi, July 17

BHARAT BOND EXCHANGE Traded Fund (ETF), a key instrument for central public sector enterprises (CPSEs) to raise debt capital from a larger pool of sources, including retail investors, raised around ₹10,000 crore on Friday.

"The second series of Bharat Bond ETF received an outstanding response, over-subscribed more than three times, estimated collection around ₹10,000 crore with a wide participation across categories. Final numbers are still being tallied and will be released by Monday," Department of Investment and Public Asset Management secretary Tuhin Kanta Pandey

of Investment and Public Asset Management secretary Tuhin Kanta Pandey.

"In its maiden offer in December last year, Bharat Bond had mobilised Rs 12,400 crore for the CPSEs via two investment options - a short-term instrument for 3 years (Bharat Bond ETF April 2023) and a long-term one for 10 years (Bharat Bond ETF April 2030).

are the low entry barrier and expense ratio.

"The second series of Bharat Bond ETF received an outstanding response, over-subscribed more than three times, estimated collection around ₹10,000 crore with a wide participation across categories. Final numbers are still being tallied and will be released by Monday," Department of Investment and Public Asset Management secretary Tuhin Kanta Pandey.

The funds collected will be invested in two new series of AAA-rated CPSE bonds with maturity profile of 3 years and 11 years. From the perspective of investors, the quasi-sovereign nature of the CPSE bonds in the index is an attraction, so

are the low entry barrier and expense ratio.
