A Heritage of Dairy Excellence

For more than 3 decades, we have not only stayed true to our values and mission, but also created a diversified product portfolio, which supports dairy farmers, delights consumers and serves their nutritional requirements.

The result is a strong and sustainable Heritage of dairy excellence.

The strength of our business model lies in our technologically advanced R&D infrastructure, quality control mechanism, deeply entrenched distribution network and above all strong and long-lasting relationships with 300,000+ dairy farmers.

Our strategic investments, over the years, to modernise our processing facilities and optimise our supply chain are translating into tangible business outcomes.

In FY2022-23, we have accomplished outstanding top-line growth rate. This sterling performance is a testament of our ability to navigate challenges and leverage market opportunities with a consumer-centric approach.

We will continue to leverage technology both in our

processing and distribution network, streamline processes and adopt best practices to deliver industry-leading value to our consumers and all other stakeholders.

About Us

Heritage Foods is a leading Indian dairy company that is rapidly expanding with the goal of serving farming community. With the help of more than 300,000 dairy farmers, we are committed to providing high-quality dairy products to consumers.

Vice-chairperson & Managing Director's message

Our success in driving top-line growth can be attributed to several key factors. Firstly, we have continued to focus on expanding our product portfolio and enhancing our existing offerings to meet the evolving needs and preferences of our consumers.

N. Bhuvaneshwari

Vice-Chairperson & Managing Director

Dear Shareholders,

I hope this message finds you in good health and high spirits. I am delighted to share with you the exciting news of Heritage Foods Ltd's remarkable performance in the financial year 2022-23. Our Company has delivered substantial top-line growth, and I am pleased to report that we have achieved exceptional results.

First and foremost, I would like to express my gratitude to each and every one of you for your unwavering support and confidence in Heritage Foods. It is your trust and belief in our vision that has propelled us to new heights and enabled us to achieve such impressive growth.

In FY2022-23, your Company witnessed a significant increase in revenue, resulting in an outstanding top-line growth rate. We have not only met, but also exceeded our targets, demonstrating our ability to navigate challenges and seize opportunities in the market. This exceptional performance is a testament to our strong business fundamentals, strategic initiatives, and the hard work and dedication of our talented team.

Our success in driving top-line growth can be attributed to several key factors. Firstly, we have continued to focus on expanding our product portfolio and enhancing our existing offerings to meet the evolving needs and preferences of our consumers. This consumers-centric approach has allowed us to capture new market segments and drive increased sales.

Moreover, we have invested significantly in modernizing our processing facilities and optimizing our supply chain. These investments have not only improved operational efficiency, but also enabled us to scale our operations to meet the growing demand. By leveraging technology and adopting best practices, we have been able to streamline processes, reduce costs and deliver superior value to our customers.

In addition, our unwavering commitment to quality and food safety has played a pivotal role in our success. We understand the importance of delivering products that meet the highest standards and we have implemented stringent quality control measures across our operations. This focus on quality has not only strengthened our brand reputation but also fostered consumer loyalty and trust.

Looking ahead, we remain committed to our growth trajectory and are confident in our ability to capitalize on future opportunities. We will continue to invest in research and development, innovation, and marketing initiatives to drive sustained growth and expand our market reach. Our goal is to further enhance our competitive position and deliver long-term value to our stakeholders.

As we celebrate this exceptional achievement, it is important for us to acknowledge the relentless efforts and dedication of our entire workforce. Their commitment to excellence,

resilience, and ability to adapt to changing market dynamics have been instrumental in our success. I extend my heartfelt appreciation and gratitude to each and every member of the Heritage Foods family.

I would like to express my gratitude to our esteemed shareholders for their unwavering support and confidence in Heritage Foods. Your trust and belief in our vision have been instrumental in our journey forward. We remain deeply committed to creating sustainable value for all our stakeholders.

In conclusion, I would like to express my sincere gratitude once again to our shareholders for their unwavering support and trust. The remarkable top-line growth achieved by Heritage Foods in the fiscal year 2022-23 is a testament to our collective efforts and strong foundation. We are committed to delivering sustainable value and long-term growth, and we look forward to embarking on this journey with your continued support.

Warm regards,

N. Bhuvaneswari

Executive Director's message

Dear shareholders,

It is an absolute pleasure for me to look back on the year gone by gathering strength from a robust business model and an innovative approach to capitalise on new and emerging opportunities, we continue to lead Heritage as a progressive brand. Despite the challenging business environment, mostly on account of economic uncertainty, our Company has continued to thrive amidst difficulty. Our commitment to quality and excellence encourages us to sustain our position as a leader in the dairy industry. With growing consumer awareness about health and fitness, the consumption of dairy products have increased significantly over the years. Along with quality concerns, consumers are now seeking value added dairy products to fulfil their nutritional needs.

At Heritage, we strive to provide superior quality, nutrient-enriched dairy products to our customers through continuous innovation and a strong emphasis on operational excellence. Throughout the year, we worked to add value to our product portfolio by investing in technologically advanced R&D infrastructure and consistently expanded our distribution network.

Over the years, Heritage's milk and products have been consumers favourites, our range of value-added products has been a primary growth driver. We continued on our path to add innovative and unique value-added products. During the year the company launched several new products in the 'drinkable and ice-cream' category to further enrich our product portfolio.

We continued on our path to add innovative and unique value-added products. During the year the company launched several new products in the 'drinkable and ice-cream' category to further enrich our product portfolio.

Along with a focus on expanding our distribution network, we have been strengthening our brand through our omni channel presence in retail trade and improvement of Heritage owned networks. To strictly adhere to the highest standards of quality, we continue to invest in state-of-the-art machinery and product innovation. Moreover, to improve our logistics facilities, we are using latest technology for route planning and it has helped us to lower transportation costs considerably.

We are also planning to broaden our geographical footprint and penetrate deeper into metropolitan cities. At present, we have sales networks in 11 Indian states and are expanding into several towns and semi-urban areas.

I'm delighted to share that our company's credit rating has been revised from A to A+, a testament to our commitment to create value for all our stakeholders and investors. Furthermore, we have a subsidiary company namely, Heritage Nutrivet, which focuses on caring for the nutrition of cattle and it will also be a trusted brand for procuring livestock feed.

N. Brahmani

Executive Director

Resting on our digital capabilities, we aim to provide 24/7 service to consumers through our digital platforms. Additionally, we recently launched the Heritage VET+ app, which has helped numerous farmers to avail knowledge about animal care, feeding activities and disease awareness.

We have strengthened our balance sheet by turning debt-free and having a healthy cash balance, which is consistent with our financially responsible strategy. In the face of unexpected macroeconomic challenges, our tactics have shown to be successful. We are confidently focusing

on diversifying our product offering as we move forward.

We registered a net revenue of ₹32,087 million compared to ₹26,429 million in the previous financial year. Our EBITDA and PAT stood at ₹1,449 million and ₹659 million.

With a strategic roadmap for success, Heritage Food remains poised for long-term growth. Our emphasis on innovation, quality, and sustainability continue to be our guiding light. Besides, our dedicated and talented workforce continue to strengthen the foundation

of the organisation and empower it to accomplish difficult milestones.

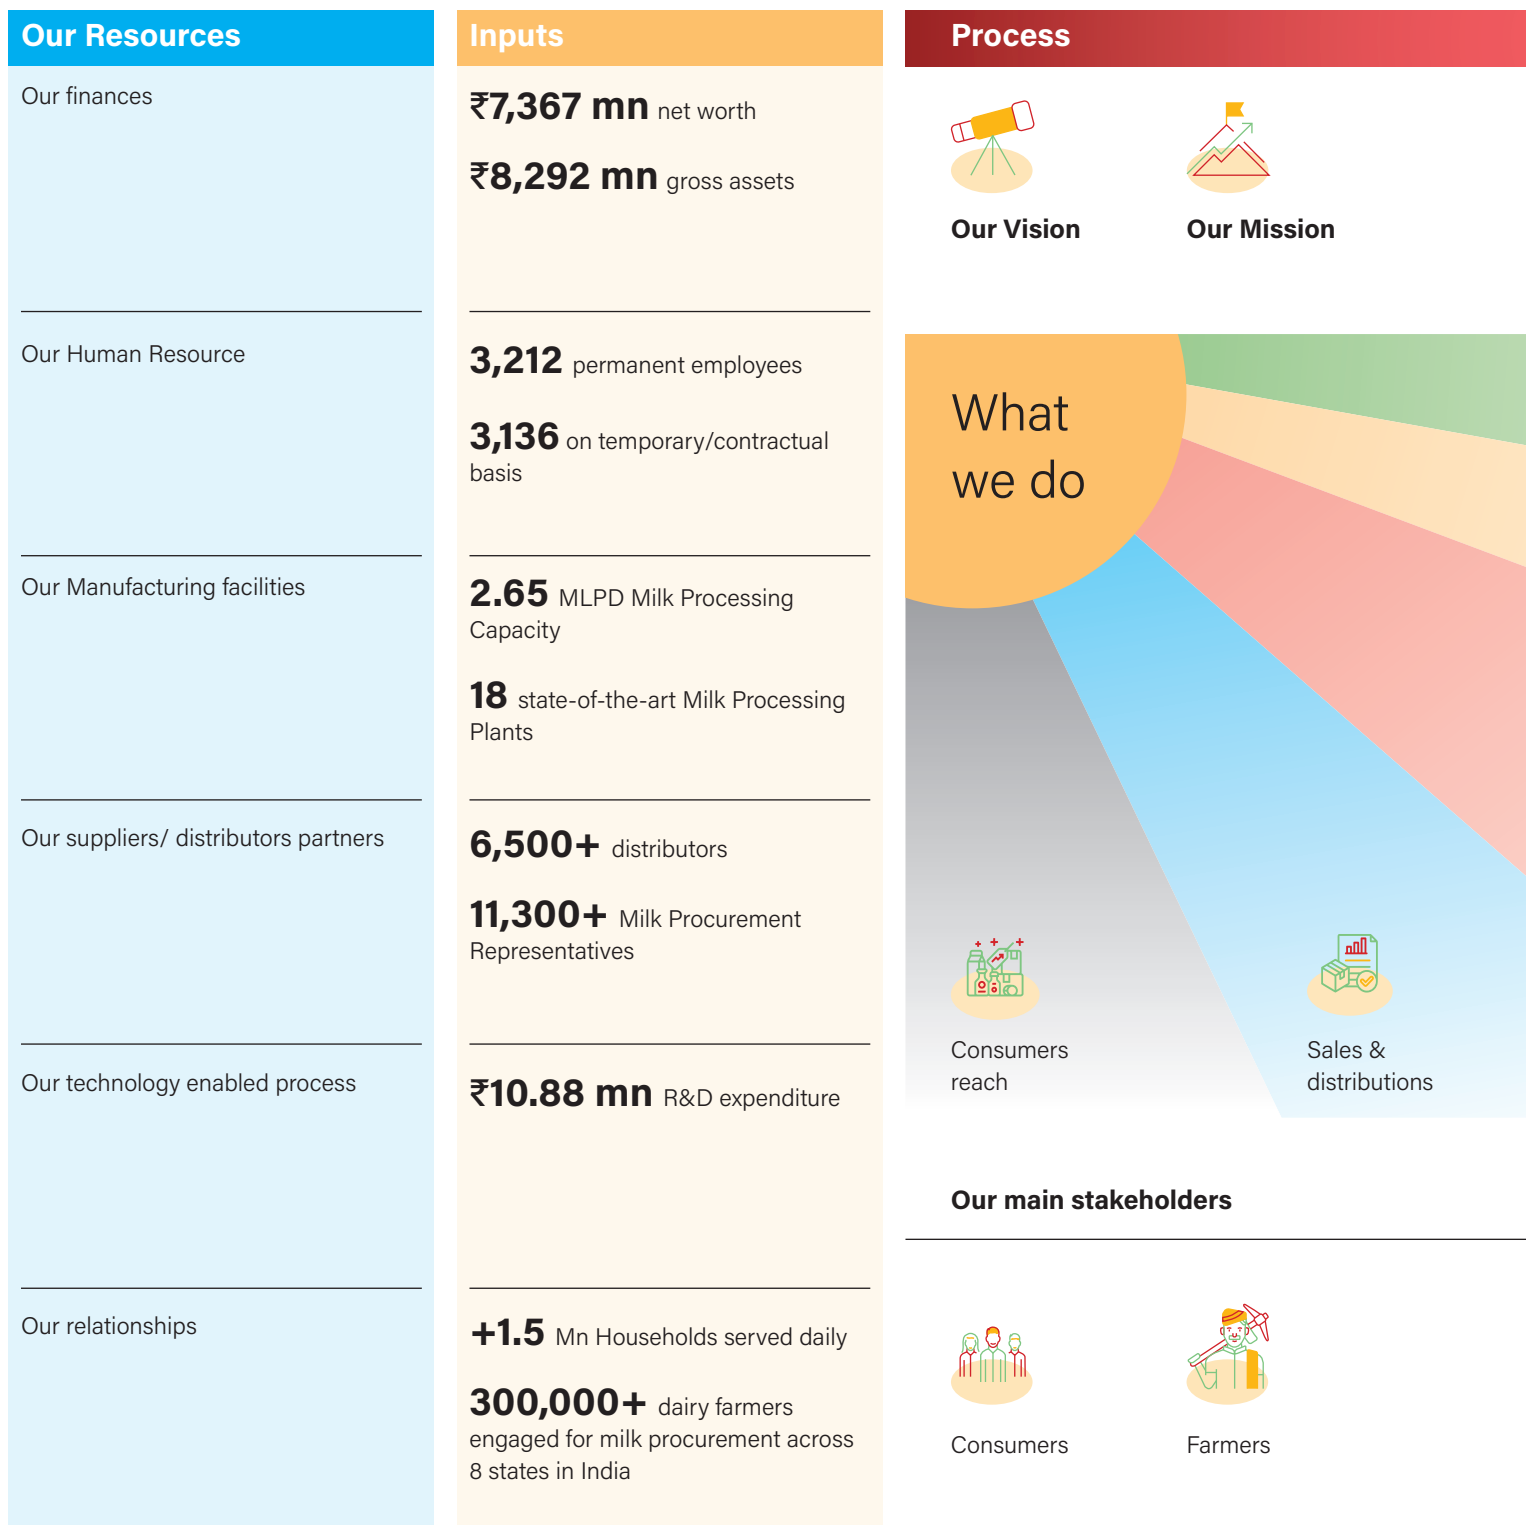

I would like to express my gratitude to our shareholders, farmers, distributors, customers, and our employees for their relentless support and belief in our company. We are excited to meet your expectations with prudent performances in the years ahead.

Empowering our human assets

At Heritage Foods, we believe that our people are our greatest asset. We are proud of our diverse and talented workforce that comprise individuals from different backgrounds and with varying skill sets. Our employees are passionate about the work they do and are committed to delivering the highest standards of quality and customer service. With a focus on employee engagement, development, and empowerment, we strive to create a culture of excellence and inclusivity that fosters innovation, collaboration, and growth for all.

During the year, we have implemented transformative HR and talent management initiatives. These initiatives implemented have had a profound impact on creating a thriving work environment, nurturing employee growth and development, and enhancing overall productivity.

We digitise the employee experience, foster a culture of recognition and career development, promote an open office culture, strengthen core functions through specialised training, measure employee engagement through Gallup surveys, and introduce new KPIs and productivity assessment methods.

Streamlining HR processes through digitalisation

Streamlining HR processes has been a top priority for us, leading to a digital transformation journey aimed at enhancing the entire employee life cycle. Through the implementation of 'HR ZOHO' software and automation tools, we have significantly improved efficiency and accuracy in areas such as recruitment, onboarding, performance management, and offboarding. This digitisation initiative has not only reduced administrative burdens but also enhanced the overall employee experience.

Star and ambassador recognition

To celebrate the contributions of star performers and foster a culture of appreciation, we launched the 'Star and Ambassador Recognition' program. This initiative allows employees to nominate their peers for outstanding achievements and showcases their accomplishments through various channels. By recognising exceptional talent, we aim to instil a sense of pride and motivation throughout the organisation.

Career development planning

Recognising the importance of nurturing employee growth, we introduced comprehensive Career Development Planning. This initiative provides employees with personalised roadmaps for skill development, goal setting, and advancement within the organisation. Through regular 1:1 and coaching sessions, as well as targeted training opportunities, we empower our employees to shape their career trajectories.

Emotional intelligence training and OJT for core specialised functions

To build effective relationships and drive success, we implemented specialised training programs focused on developing employees' emotional intelligence skills. We introduced on-the-job training (OJT) programs tailored to core specialised functions such as sales, distribution, and procurement. These initiatives aim to enhance employees' competencies and equip them with the necessary tools to excel in their roles.

New KPI and productivity assessment initiatives

To drive organisational performance and ensure alignment with strategic objectives, we have introduced new Key Performance Indicators (KPIs) and productivity assessment initiatives. These metrics provide clear guidelines for measuring individual and team performance, fostering a culture of accountability and continuous improvement. By tracking progress

and setting ambitious goals, we aim to enhance productivity, optimise operational efficiency, and deliver exceptional results.

Fostering an open office culture

To build a culture of transparency, collaboration, and innovation, we actively promote an open office culture where ideas flow freely and employees feel comfortable expressing their opinions. Initiatives such as town hall meetings, cross-functional project teams, and employee feedback forums encourage open communication, break down silos, and nurture a sense of belonging.

Diversity & inclusion

Diversity and inclusion are fundamental principles that direct how we manage talent, provide customer service, and engage with the community. We believe, having a diverse and inclusive workplace is crucial for our long-term success.

We are dedicated to creating a culture that values and respects different perspectives and fosters a collaborative working environment. At Heritage, we look forward to develop a workforce that represents the communities we serve and respond to their needs by encouraging fairness, inclusivity and equal opportunity.

Nurturing environmental sustainability

Heritage is deeply committed to promoting environmental sustainability and minimising its ecological impact. We contribute to the well-being of our stakeholders and the communities in which we operate by taking a holistic approach to sustainability. To reduce our dependence on fossil fuel, we are also continuously investing in renewable energy and strive to minimise our carbon footprint.

We are supplying energy from on-site wind and solar power plants at 11 different facilities, including Bangalore in Karnataka, Battiprolu, Bobbili, and Madanapalli in Andhra Pradesh, Kalluru and Mulugu in Telangana, and Sangvi in Maharashtra. Our wind power facilities are located in Chinahothur, Vajrakarur, and Beluguppa in the Ananthapur District of Andhra Pradesh.

Renewable energy

The Company being a responsible corporate citizen invested 452 Million till March 2023 under Green initiatives and 10.50 MW power is getting generated through renewable energy (Solar & Wind). About 55% of total electricity consumption is met through renewable energy sources.

Business Review

Your Company has not changed its nature of business during the period under review. Your Company continues to report results under two divisions i.e. Dairy division and Renewable division, in operation across 11 States in India.

Dairy Business Overview

The dairy industry in India, is one of the most attractive among all consumer foods segments for many reasons. In the global context, India has been the largest producing and consuming nation in the world for many years now. With an estimated annual production in excess of 210 million tonnes, India contributes to a quarter of all world production and consumption. But what is more interesting for us is that while the global dairy production and consumption is expected to maintain a growth rate of 1.6% year on year, the rate of growth of the Industry in our country is probably 3 times faster. The consumption growth in India is driven by a multitude of factors, primarily (1) fast pace of growth of economy and disposable income, (2) accelerating urbanisation and the shift to packaged products and finally (3) the growing demand for nutrition that fuels an aspiring nation, driving higher per capita consumption and more occasions for dairy products.

The economics of the business and recent trends

While the mid-term to long-term outlook for the business is very robust and promising, the industry has been through a rough patch in the last 12-15 months. At a high level, the continuing inflationary pressures on the farm prices of raw milk has put tremendous strain on the profitability of the industry in general. After a very long period in time, the industry witnessed double

digit inflation in raw milk procurement prices, which was a result of the concurrent impact of multiple factors.

On the one hand, farmers were facing sequential increase of feed and fodder prices as early as second half of 2021 due to climatic vagaries and input prices, part of which naturally resulted in price increase of milk output at the farm level and shrinkage in production, as farms became unviable. Furthermore, restrictions put by pandemic limiting farmers ability to buy or breed new cattle and the rapid spread of Lumpy Skin disease in many parts of the country, worsened the supply side further. On the other, consumers in the post pandemic period significantly increased their food basket size, especially for nutritious food such as dairy, rapidly increasing the demand side. The resulting supply-demand gap led to the sequential inflation like we had never seen before.

We have also observed that in such turbulent times, buffalo dairy farms have borne the brunt more than cow farms, as buffalo farms have higher maintenance costs. This has pushed many farmers to shift from buffalo rearing to cow rearing. This naturally results in the fat percentage of the average milk collected to come down, as cow milk has lower percentage of fats. This has put serious pressure on the pricing of consumer fat products such as Ghee and Butter and a potential shrinkage of shopping baskets for these high value products in the coming quarter and the middleclass consumer may cut down on some of the consumption occasions and quantities.

At the end of financial year 2022-23, most industry experts believe that we may have reached the peak of this inflationary trend. In most of our procurement regions, the farm prices have reached levels that make dairying quite lucrative attracting the farmers back into raising production. Early indications of normal flush also give the industry players confidence that raw material prices should soften towards the end of the calendar year 2023. Having passed on large part of the raw material price increase to the end consumers of dairy products, the economics of the business is expected to improve towards end of the financial year 2023-24.

Dairy Market Forecast: As per the research report by IMARC Group, The dairy market in India size reached INR 14,899.8 Billion in 2022. This is 13.1% higher than their estimate of the industry in 2021, which is perfectly in line with the growth estimates from many other sources. Looking forward, the report calls out that the market is continuing the momentum with a CAGR of 13.2% during the next 5 year period, expecting to reach INR 31,185.7 Billion by 2028.

One of the main factors driving the growth in the dairy industry in India, is the evolution of consuming households from an unorganized to a relatively organized sector, along with the increasing consumption of different value-added products, such as curd, paneer, ghee, butter, cheese, etc.. Multiple sources, including IMARC, estimate the share of organized and branded players contribution to liquid milk consumption at around 40%. While this itself gives tremendous opportunity for players like your

company to grow the packaged milk business, the opportunity in value added products is even more attractive.

As per estimates of the same reports, including IMARC, the percentage share of organized sector for Curd is around 9% and Paneer is around 4%. Even Ghee which is mostly organized has only around 19% of the consumption coming from organized sector. While these percentage contributions indicated are at a national level, even in the urban areas where your company operates, the contribution of organized sector for value added products like Curd, Paneer, Ghee, Ice-Cream, etc. do not exceed 50%. This gives tremendous potential and opportunity for driving growth, especially in Value added products segments.

Increasing Demand for Milk and Value-Added Products:

With an increase in the spending power of the population, the demand for milk and other value-added dairy products is expected to increase in the coming years. In addition to greater buying power, consumers are also becoming increasingly health conscious. This is aggressively driving the increasing share of dairy and other nutritious products in the consumer basket. For example, many consumers are replacing sugar-laden beverages with more nutritious milk-based beverages. There is also marked geo-spatial shift that we are witnessing, in terms of urbanisation bringing more and more consumers to urban centres with limited access to unorganized dairy players and the consolidation of organized retail segment and their increasing share of the shopper basket.

Value-added products include curd, paneer, butter, cheese, paneer, ghee, flavoured milk, Cold-coffee, Lassi, Buttermilk, Ice-Cream, etc., which are products that are produced by alteration and enrichment via use of additives, microbial fermentation or simply mixing with liquid milk. These products usually have marginal incremental cost, but much higher perceived value for the consumer, due to the special occasions in which it is consumed, the potential for differentiation and the nutritional benefits it offers the consumers. This gives the industry and your company to enjoy a much higher margin than base milk products.

State-wise segment insights: Uttar Pradesh, Rajasthan, Madhya Pradesh and Gujarat are some of the major milk producing states in India. Uttar Pradesh and Madhya Pradesh are two of the largest milk-producing state because of high buffalo population, they are both largely unorganized. Gujarat and Rajasthan have numerous cooperative dairy milk unions, and primary milk cooperative societies play a crucial role in the production of milk.

After these top states, Andhra Pradesh, Maharashtra, Punjab, Haryana, Tamil Nadu, Karnataka and Telangana appear on the list. Your company is present with its procurement network in all these states and in some of these states like AP, Maharashtra, Tamil Nadu and Telangana, your company's procurement network is established with a strong and deep procurement presence. Many of the states where your company operates its procurement network are also among the most organized and

among the fastest growing milk-producing regions. This gives us great competitive advantage.

Government Initiatives and Support: Both the Union Government and the various state Governments in the states where your company operates are taking several progressive initiatives to promote the dairy industry. While Agriculture sector employs the largest number of people in our country, dairying is probably the largest employer within the Agriculture sector. It is estimated that around 80 million people are involved in cattle breeding, cattle rearing, dairying and dairy products manufacturing and selling.

The support from the Government is across all these segments of the industry, including support towards cattle breeding, clean milk production, dairy development and feed fodder management. The Department of Animal Husbandry, NDDB, and other government affiliated institutions manage these initiatives in a constructive way. The manner in which Dairy industry would enhance milk production and upgrade milk processing technologies, is also supervised by these departments/ agencies.

The company's operations and evolution in recent years:

Your Company was founded with a vision of 'Delighting every home with fresh and healthy products and empowering the farmer'. The company has made significant progress on both these pillars in this financial year.

On the farm side, your company today collects milk from nearly 300,000 farmers, spread across more than 10,500 villages in 9 states. In this financial year, we have opened 1457 new village level milk procurement centres, which brought in nearly 2 lakh plus litres of additional raw milk daily by the end of quarter 4. We have entered Odisha state for procurement in this financial year. For the last 3 decades, the company has strengthened its farmer-partner relations on 3 basic principles.

- (1) **Prompt and timely payment:** The company holds the principle of paying farmers for the milk collected promptly twice or thrice a month (depending on the region). This means faster, but more importantly guaranteed cashflow for our farmers. This year as well, as for the last 30+ years, your company has not even missed a single pay day notwithstanding the bank holidays and other challenges.
- (2) **Transparency and accurate measurement:** The company has a very transparent mechanism to ensure that the measurement of solids in the milk collected is absolutely accurate and is openly communicated to the farmers, so that our farm partners know how much they have earned on any given day. Once a farmer starts pouring milk to Heritage, they realize the gains they make because of this, which creates stickiness.
- (3) **Fair pricing:** The company compensates the farmer for the milk collected based on measurement of solids (fat and SNF) delivered. The prices are set in a very fair manner and is competitive compared to any other option the farmer has

in the village. This helps us attract farmers in every village we enter.

While these principles help your company go a long way in empowering its farmers, the company also undertakes several other activities which go a long way in growing farmer income and empowering them financially. Some of these initiatives are

- Dissemination of animal care and farm management information through informative videos on VET+ mobile application, which has over 100,000 downloads and monthly active users.
- Conducting veterinary camps throughout the year, through 17 veterinary doctors and many vet assistants
- Supply of high quality cattle feed and fodder seeds
- Training of farmers for better feed and fodder practices
- Facilitating loans for the purchase of cattle through commercial banks/ NBFCs
- Facilitating Group personal accident coverage for farmers and insurance for the cattle

Your company has farmer network about 0.3 million dairy farmers across nine major milk producing States namely, Andhra Pradesh, Telangana, Karnataka, Tamil Nadu, Maharashtra, Rajasthan, Punjab, Uttar Pradesh and Odisha. The direct route of milk procurement enables it to maintain quality. The company added several chilling plants through the year, to increase its procurement network and today operates 215 chilling centres/ bulk coolers and procured an average of 1.4 Million litres of milk per day in FY22-23, which is a growth of 17% over previous year. With this, the chilling capacity of the company has grown to 2.2 million litres per day. Your company also operates 18 own processing plants with installed milk processing capacity of 2.65 million litres per day.

On the consumer side, your company is already a pan India player and our presence has grown deeper in the West and North Indian markets this year, in addition to our strong presence in South India. This year, the company achieved an average full year sales volume of 1.5 million litres per day, which is a growth of 11.2% in volumes and 21% in revenue over previous year. Value Added products, registered a strong volume growth of 24.5% to cross 400 Metric tons per day average sale through the year and achieved a revenue growth of 33%. Through the year, your company launched 14 new products, across many product clusters and added several new customers. We expanded our presence in the emerging channels like Quick commerce, with the addition of several new customers, alongside deepening our presence in the general trade segments through 150+ new Heritage Happiness Centres, which are franchisee operated stores-cum-neighbourhood distribution centres.

During the year under review your Company has purchased the assets and acquiring of procurement & sales network from M/s

Suguna Dairy Products (India) Private Limited to expand the Dairy business of the Company to strengthen South Tamil Nadu and part of Kerala markets.

Renewable Energy Division:

Your Company strongly recognizes the responsibility towards protecting the environment. As a forward-looking enterprise, it is strongly committed to extending the Green' footprint.

Your Company is taking a lot of initiatives for conservation of energy. Renewable energy was the major focus area in the last ten years. Now your Company has 10.50 MW of solar and wind power for captive consumption. Your Company is continuously investing in latest technologies and efficiencies to conserve energy.

Investor Relationship

Investor relations is a critical function within a company that focuses on building and maintaining relationships with its investors and stakeholders. It serves as the bridge between the company's management team and its shareholders, analysts, and the broader investment community. The primary goal of investor relations is to effectively communicate the company's financial performance, strategic direction, and key developments to the investment community.

Investor relations professionals play a vital role in managing the flow of information between the company and its investors. They are responsible for disseminating accurate and timely information, such as financial reports, earnings releases, and regulatory filings, to ensure transparency and compliance. These professionals also organize and participate in investor conferences, roadshows, and earnings calls, where they provide updates on the company's performance and address questions and concerns from investors.

Another crucial aspect of investor relations is building and maintaining relationships with shareholders and analysts. Investor relations teams proactively engage with institutional investors, retail shareholders, and sell-side/buy-side analysts, providing them with insights into the company's operations, industry trends, and financial outlook. These interactions help foster trust, credibility, and long-term relationships, which are essential for attracting and retaining investors.

In addition to communication and relationship-building, investor relations professionals also monitor and analyze market trends, investor sentiment, and competitor activities. They assess the impact of market developments on the company's valuation and help management understand and respond to changes in the investment landscape. By staying abreast of market dynamics, investor relations teams can effectively advise the company's leadership on investor concerns, expectations, and potential risks.

Overall, investor relations is a critical function that helps companies establish and maintain productive relationships with their investors and the broader investment community. By providing transparent and timely information, fostering relationships, and monitoring market trends, investor relations professionals contribute to enhancing the company's reputation, maximizing shareholder value, and supporting its long-term growth objectives.

Board Diversity

Board diversity offers several advantages. Here are some of the key benefits of having diverse boards:

- Enhanced decision-making: Board diversity brings together individuals from different backgrounds, experiences, and perspectives. This diversity of thought and expertise can lead to more robust and well-rounded decision-making processes. By considering a wider range of viewpoints, boards can avoid groupthink and make more informed and innovative choices.
- Improved corporate governance: Diverse boards can contribute to better corporate governance practices. When a board comprises individuals with diverse skills, knowledge, and experiences, it ensures a more comprehensive oversight of the company's activities. This can help in addressing conflicts of interest, promoting transparency, and ensuring accountability.
- Increased creativity and innovation: Diversity stimulates creativity and innovation within organizations. By incorporating diverse perspectives, boards can foster a culture of openness, collaboration, and inclusivity. Different viewpoints can challenge existing norms, encourage fresh ideas, and lead to more innovative solutions and strategies.

- Enhanced problem-solving: Diverse boards tend to be more effective in addressing complex problems. The varied backgrounds and experiences of board members enable them to approach challenges from multiple angles. This diversity of perspectives can result in more effective problem-solving and better outcomes for the organization.
- Better understanding of customers and markets: India is a diverse country with a wide range of cultures, languages, and consumer preferences. Having diverse boards can provide valuable insights into the diverse needs and preferences of customers in different regions and segments of the market. This understanding can help companies tailor their products, services, and marketing strategies to effectively target and serve diverse customer groups.
- Improved reputation and stakeholder trust: Companies with diverse boards often enjoy a positive reputation for being inclusive and socially responsible. Such companies are perceived as more attuned to societal values and needs. Board diversity can enhance the company's brand image, attract diverse talent, and build trust with stakeholders, including investors, customers, and employees.
- Mitigation of biases: Diverse boards can help mitigate unconscious biases and promote fairness and equity. By ensuring representation from different genders, ethnicities, age groups, and backgrounds, boards can counterbalance any inherent biases and ensure a more equitable and inclusive decision-making process.

In summary, board diversity offers numerous advantages, including improved decision-making, enhanced corporate governance, increased creativity and innovation, better problem-solving, understanding of diverse markets, improved reputation, and the mitigation of biases. These benefits contribute to the long-term success and sustainability of organizations in the Indian business landscape. The Board has adopted the Board Diversity Policy sets out the approach to diversity of the Board of Directors. The Policy is available in the Company website, ie www.heritagefoods.in>Investor>policy.

List of Internal Auditors is provided in the corporate information section in the Annual Report.

Internal Audit & Control Systems

Internal audit and control systems play a crucial role in ensuring the efficient and effective operation of organizations across various sectors. Internal audit refers to the independent and objective examination of an organization's activities, processes, and controls to assess their adequacy, reliability, and compliance with relevant laws, regulations, and internal policies. The primary objective of internal audit is to provide assurance to management and stakeholders that risks are identified, managed, and mitigated appropriately.

Internal audit encompasses a wide range of activities, including evaluating the effectiveness of internal controls, identifying areas of improvement, assessing operational efficiency, detecting fraud and irregularities, and ensuring compliance with legal and regulatory requirements. By conducting regular audits, internal auditors help organizations identify potential weaknesses in their systems and processes, allowing management to take proactive measures to address them.

Control systems, on the other hand, refer to the policies, procedures, and practices put in place by management to safeguard assets, ensure accurate financial reporting, and promote operational efficiency. These control systems aim to mitigate risks and provide reasonable assurance that the organization's objectives are achieved.

The internal audit function is responsible for evaluating the design and effectiveness of these control systems. Internal auditors assess whether the controls are properly designed to mitigate risks and whether they are operating effectively in practice. They conduct tests and reviews to identify control gaps, weaknesses, or deviations from established policies and procedures. Based on their findings, they provide recommendations to management for enhancing controls and improving processes, thus helping the organization operate in a more efficient and risk-aware manner.

Effective internal audit and control systems contribute to better governance, risk management, and internal controls within an organization. They provide management and stakeholders with confidence that risks are managed appropriately, financial information is reliable, and operations are conducted with integrity. By continuously monitoring and evaluating controls, internal audit helps organizations stay ahead of emerging

risks, adapt to changing business environments, and enhance overall performance and accountability.

Your Company has an Audit Committee consisting of Four Non-Executive Independent Directors and one Non-Executive Director. The Audit Committee of the Board of Directors and Statutory Auditors are periodically apprised of the internal audit findings and corrective actions taken. The Audit Committee of the Board of Directors reviews the adequacy and effectiveness of internal control system and suggests improvements if any for strengthening them. Your Company has a robust Management Information System which is an integral part of the control mechanism.

Business Responsibility & Sustainability Report

In today's business landscape, the adoption of the Business Responsibility & Sustainability Reporting (BRSR) framework has become imperative for organizations aspiring to elevate their Environmental, Social and Governance (ESG) disclosures. By embracing BRSR, companies set a new standard for transparency and accountability, ensuring standardized reporting on ESG parameters, sustainability-related risks, and opportunities. This strategic move not only drives long-term value creation but also empowers investors with comprehensive ESG data, enabling them to make well-informed decisions.

Recognizing the significance of proactive ESG engagement, our Company has taken diligent measures to address ESG issues. We proactively identify areas for improvement and demonstrate an unwavering commitment to sustainable practices. Adhering to the BRSR framework, we aim to provide stakeholders with clear and reliable information that enables them to comprehend our ESG performance and progress. This unwavering commitment to transparency fosters trust among investors, customers, and the wider community, reinforcing our position as a responsible and sustainable organization.

24. Overview of the Company's business conduct, pertaining to environment and social matters that present a risk or an opportunity to the business of the Company, rationale for identifying the same, approach to adapt or mitigate the risk along with its financial implications, as per the following format:

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk/opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
1	Raw Material Sourcing	Risk	The Company's raw materials are crucial to the kind of products it manufactures. These raw materials are specific to certain geographies. The changing climatic conditions may pose a risk to the availability of these raw materials.	To mitigate this risk, the Company is expanding sourcing to multiple geographies.	Negative – The implications of this would be on logistics cost
2	Supply Chain Management	Opportunity	Setting up a resilient supply chain has assisted the Company in ensuring the continuity in adverse times. The supply chain has helped the Company to have competitive pricing and pass on its benefit to the consumers without any business disruptions.	The business continuity and risk management plan of the Company has covered all foreseeable risks in its supply chain with measures already underway to address those.	Positive – The Company has developed a resilient supply chain which has helped it fetch long-term results.
3	Governance	Opportunity	This has helped the Company to strengthen the organisational strategy for championing success.	The Company is led by strong leadership and capable execution teams.	Positive – In transforming the business and leveling it up.
4	Human Rights	Risk	Changing regulations related to human rights may pose a challenge.	The Company put in substantial efforts to ensure that no human right violations occur in the entire line of Company's business.	Negative – Any violation can pose a severe reputational and financial risk for the organisation
5	Employee Health and Safety	Risk	This can lead to decreased productivity.	Many efforts and initiatives have been implemented to ensure employee health and safety.	Negative – Any investment in employee health and safety will pay off in the long run.

Leadership Indicators

1. Awareness programmes conducted for value chain partners on any of the Principles during the financial year:

Total number of awareness programmes held	Topics / principles covered under the training	%age of value chain partners covered (by value of business done with such partners) under the awareness programmes
The Company has not organised dedicated training sessions on the NGRBC principles for our value chain partners for FY 2022 -23. However, core components of the principles are discussed during vendor onboarding, evaluation and periodic review meetings with some of the important vendors.		

2. Does the entity have processes in place to avoid/ manage conflict of interests involving members of the Board? (Yes/No) If Yes, provide details of the same.

The Company has a Code of Conduct for the Board and Senior Management, which includes areas of ethics, integrity and honesty, and provides guidelines and processes on addressing unethical behavior. The Code also details the processes in place to manage conflicts of interest involving board members, contributing to a culture of transparency and accountability.

Principle 2: Business should provide goods and services in a manner that is sustainable and safe.

The Company understands the risks associated with goods and services and the subsequent environmental impacts they may have. To ensure an eco-friendly sourcing process, the Company actively engages in various Environmental and Social Impact (ESI) initiatives that support and empower farmers in supplying milk. These initiatives not only ensure a sustainable supply chain but also promote responsible farming practices and benefit the agricultural community as a whole.

Moreover, the Company is committed to mitigating the adverse effects of plastic waste. It actively participates in plastic recycling initiatives, recognizing the importance of responsible waste management. By promoting recycling and seeking innovative solutions, the Company strives to minimize plastic waste and contribute to a circular economy that conserves resources and reduces environmental harm.

Through these combined efforts, the Company demonstrates its dedication to sustainable practices, environmental stewardship, and positive socio-economic impacts. By prioritizing responsible sourcing and actively engaging in recycling initiatives, the Company sets an example for others in the industry to adopt similar environmentally conscious practices. Together, we can work towards a greener and more sustainable future.

Essential Indicators

2. a. Does the entity have procedures in place for sustainable sourcing? (Yes/No)

No

b. If yes, what percentage of inputs were sourced sustainably?

Over the last 31 years, the Company's milk sourcing has risen many folds. The Company has a sustainable sourcing strategy from farmers across the states in which we operate. To keep the sourcing environment-friendly, the Company engages in a variety of E & I initiatives which help farmers keep supplying milk to the Company. The Company has also implemented green energy measures in order to generate power from renewable sources.

3. Describe the processes in place to safely reclaim your products for reusing, recycling and disposing at the end of life, for (a) Plastics (including packaging) (b) E-waste (c) Hazardous waste and (d) other waste.

Plastic plays a crucial role in maintaining product safety and reducing leaks and thus making it a significant component. However, the plastic waste generated by factories is a major contributor to environmental pollution. The company is dedicated to mitigating the effects of plastic waste by actively participating in plastic recycling initiatives. Similarly, to address waste like water, it undertakes treatment before being used for irrigation within the plant premises. Additionally, in adherence to the Government's Extended Producer Responsibility, we ensure that plastic is sent to authorized recyclers.

4. Whether Extended Producer Responsibility (EPR) is applicable to the entity's activities (Yes / No). If yes, whether the waste collection plan is in line with the Extended Producer Responsibility (EPR) plan submitted to Pollution Control Boards? If not, provide steps taken to address the same.

Yes. The waste collection plan is in line with the EPR plan submitted to CPCB / SPCBs.

Persistent organic pollutants (POP)	-	-	-
Volatile organic compounds (VOC)	-	-	-
Hazardous air pollutants (HAP)	-	-	-
Others – please specify	-	-	-

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

No independent assessment was carried out by any external agency.

6. Provide details of greenhouse gas emissions (Scope1 and Scope 2 emissions) & its intensity, in the following format:

Parameter	Unit	FY2023	FY2022
Total Scope 1 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	Metric tonnes of CO ₂ equivalent	XX	XX
Total Scope 2 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	Metric tonnes of CO ₂ equivalent	XX	XX
Total Scope 1 and Scope 2 emissions per rupee of turnover	Metric tonnes of CO ₂ equivalent		
Total Scope 1 and Scope 2 emission intensity (optional) – the relevant metric may be selected by the entity	Metric tonnes of CO ₂ equivalent		

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

No independent assessment was carried out by any external agency.

7. Does the Company have any project related to reducing Green House Gas emission? If yes, then provide details.

The Company has rolled out several initiatives to increase energy efficiency and reduce emissions. Some of the initiatives implemented in FY 2022-23 are as follows:

- 1) Switchover to LED lights
- 2) Solar/wind power plant installation

8. Provide details related to waste management by the Company, in the following format:

Parameter	FY2023	FY2022
Total Waste generated (in metric tonnes)		
Plastic waste (A)	2428.41	3800.93
E-waste (B)	0	0
Bio-medical waste (C)	0	0
Construction and demolition waste (D)	0	0
Battery waste (E)	0	0
Radioactive waste (F)	0	0
Other Hazardous Waste. Please specify, if any - waste oil generation. (G)	1.28	1.4
Other Non-hazardous waste generated (H). Please specify, if any. (Break-up by composition i.e., by materials relevant to the sector) - ETP sludge generation	205.59	187.36

Management discussion and analysis

Global economy

Overview

Inflation reached decadal highs at the beginning of FY23 due to geopolitical uncertainties. However, since the second half of the year, inflation has been moderating, indicating a positive outlook. The global economy appears to be on track for a slow yet steady recovery from COVID-induced challenges and the Russia-Ukraine war. Global economic output is likely to grow gradually, owing to a stabilising inflation trajectory that is reviving consumer sentiment and investor confidence. Emerging market and developing economies (EMDEs) are also witnessing growth across multiple sectors, fuelled by government expenditures in infrastructure and manufacturing sectors.

Central banks' monetary policies are expected to bear fruit, leading to a decline in global inflation from *8.7% in CY22 to 7.0% in CY23 to 4.9% in CY24. It is anticipated that the pent-up demand in numerous economies, along with a considerable reduction in inflation, will drive economic growth in CY23.

[*Source: IMF World Economic Outlook, April 2023].

Outlook

Despite mounting inflationary pressures, the global economy is buoyed by a strong labour market, higher domestic spending, an influx of foreign capital and a prudent response to the energy crisis in Europe. Many EMDEs have already recovered, which has bolstered real incomes. An optimistic global outlook would also be determined by the pace and effectiveness of fiscal and monetary policy actions implemented to boost economic expansion. Going forward, the governments and central banks of the world are expected accelerate economic growth through targeted, need-based measures.

Indian economy

Overview

The Indian economy has remained relatively shielded from the geopolitical and high inflation-induced global economic headwinds in the fiscal year 2023. India has emerged as one of the fastest-growing major economies worldwide and registered a growth rate of 7% in FY23, according to the second advance estimates of the National Statistical Office (NSO).

To foster economic growth, the Indian government has rolled out several initiatives, such as the PM Gati Shakti (National Master Plan), the National Monetisation Plan (NMP) and the Production Linked Incentive (PLI) plan. Moreover, with declining inflation, rising disposable incomes and continued investment in infrastructure development, economic growth is anticipated in the future.

Outlook

Strong credit growth, stable financial markets and the government's greater focus on infrastructure and capex are expected to crowd in substantial investments. Although the global economic outlook is challenging, the fact that the Government of India and the Reserve Bank of India have been able to safeguard the Indian economy from an impending global recession underscores India's robust economic fundamentals. India is showing signs of recovery, and pent-up demand during the last two years offers hope for new growth opportunities in the domestic market.

Global dairy industry

According to the IMARC report, the global dairy industry is projected to register a CAGR of 5.79% during the forecast period (2023 to 2028).¹

Milk production in the European Union, the second largest milk producer, is projected to at a slower pace when compared to the world average. Despite a slight surge in domestic milk production compared to the previous decade, China is anticipated to remain the world's largest importer of milk products. Moreover, population growth has raised the demand for livestock products and is a primary factor in increasing the import of dairy products to Asian countries. In the next decade, the world's per capita consumption of fresh dairy products is expected to grow by 1.4% per annum, slightly faster than the last decade due to higher per capita income growth.²

Indian dairy industry

India is the largest producer of dairy products in the world and ranks first in terms of milk production, contributing 23% of the global milk production.³

However, India's influence on the global dairy market is minimal because it only trades marginal amounts of milk and dairy products. Additionally, production in India was relatively unaffected by the pandemic and excess milk produced during the crisis was processed into milk powder.

The Indian dairy industry is projected to achieve a market size of INR 31,185.7 billion by 2028, showcasing a growth rate (CAGR) of 13.2% from 2023 to 2028.

A successful immunisation programme helped to reduce the impact of the Lumpy skin disease in cattle, which had an adverse effect on milk production in India in FY23. The dairy market requires significant support in the form of investments for infrastructure development for dairy processing. To create adequate infrastructure for chilling, logistics, cattle feed, and others, significant steps must be taken. Considering the scope for delivering value-added dairy products, organic/farm fresh milk and increasing exports, various government initiatives have been implemented to attract investment to the sector. Moreover, the dairy sector has been a major contributor to the growth of India's rural economy. To boost sales, India's dairy product sector continues to focus on the semi-urban and rural regions.

Government initiatives

The National Programme for Dairy Development (NPDD) has approved 4 new projects in 7 states, between January 2022 and November 2022, with a total outlay of ₹ 355.25 crore (central share ₹ 244.14 crore). With the installation of 638 bulk milk coolers (each with a capacity of 1491.00 thousand litres), 2990 automatic milk collection units, and 1419 electronic milk adulteration testing devices, these projects seek to strengthen the infrastructure for milk chilling, collection, and testing at the village level.

The Livestock Health and Disease Control (LHDC) and National Animal Disease Control Programme (NACP) are also a part of the livestock health and disease control scheme and are covered by the central budget. In the current fiscal year, ₹ 159 crore have been distributed to the states and Union Territories, under the LH&DCP's various programmes.

On May 2, 2022, in Copenhagen, Denmark, the Ministries of Fisheries, Animal Husbandry and Dairy of the Government of India and the Ministry of Food, Agriculture and Fisheries of the Kingdom of Denmark signed a Joint Declaration of Intent to collaborate in the field of animal husbandry and dairy.⁴

The Government's landmark decision to set a ₹ 20 lakh crore agricultural credit target, specifically focusing on Animal Husbandry, Dairy and Fisheries, is highly commendable. The budgetary allocation for Animal Husbandry and Dairying has increased by approximately 40% to ₹ 4327.8 crore, reflecting the sector's importance in the national economy.⁵

Opportunities

- **Increased adoption of advanced technology**

Large private companies and entrepreneurs in the dairy industry continue to adopt new-age technologies to address evolving business requirements and scale up business operations.

- **Rising entrepreneurship**

The growing interest in the dairy market has led to the development of advanced infrastructure for the dairy sector. Entrepreneurs have also established modern dairy farms and infrastructure for the production of safe and hygienic milk.

- **Demand for value-added products**

Value-added dairy products are in great demand across markets. Besides, rising consumption of ice creams/frozen dessert, milkshakes, flavoured, yoghurt and other products is also expected to drive market growth.

- **Greater income opportunities for farmers**

The spending on dairy products continues to increase due to growing awareness about their health benefits and the introduction of innovative products to the market. It has allowed small-scale dairy producers to increase their income by selling milk to larger farms that have greater access to customers in regional as well as urban markets.

Challenges

- Growing supply-demand imbalances in feed and fodder and reduced grazing grounds for cattle continue to affect animals' milk production capacity.
- Maintaining hygiene is a major concern for cattle owners, as unhygienic conditions lead to the deterioration of milk quality.
- Due to their perishable nature, it is extremely difficult to maintain the freshness of dairy products. Dairy farmers often face logistical hassles that have an impact on the production and transportation of milk products.
- Climate change and adverse weather conditions have adversely affected the dairy product market, impacting milk and raw materials for dairy products and creating an imbalance in the supply chain.

Product categories

Milk

- Fresh Milk is the most consumed product in India and also the most trusted source of essential nutrients for health. With an increasing population, the consumption of milk has also been on the rise. Health consciousness, dietary needs and rising living standards have been major contributors to rising demand for fresh milk.
- A2 Milk is 100 per cent buffalo milk with full cream, which is procured from the farms and sterilised in the Company's plants. The milk is high in A2 protein, boosts immunity and is easy to digest.
- UTH Milk or ultra-high temperature milk is made by processing milk at high temperatures to remove pathogens. The UHT process preserves all the nutrients present in milk and makes it suitable for storage at room temperature for long periods without any preservatives. It is more convenient than ordinary fluid milk as it need not be stored in refrigerator or boiled before consumption. Currently, one of the major factors driving the market is the ease of storage of UHT milk, which facilitates its transportation over long distances to milk-scarce regions. Some of the other growth-inducing factors include ease of use, long-shelf life, changing dietary habits, etc.

Value-added products

- **Curd** represents an essential part of a balanced diet and can also be consumed by lactose intolerant people also. Owing to high content of calcium, vitamin D, proteins and phosphorus present, curd helps strengthen bones and improves digestion. Population growth, rising disposable incomes, increasing health consciousness among consumers and its affordable price are some of the factors that are currently broadening the growth of the market.
- **Paneer** is a non-fermentative and non-melting type of cheese, obtained by acid and heat coagulation of milk. One of the most extensively consumed dairy products in India, Paneer is used in various combinations with other vegetables and dishes and forms an important ingredient in the Indian traditional cuisine. Paneer emerged as a viable option for a considerable vegetarian population. Apart from this, factors such as increasing population, urbanization, improved cold supply chain and growing Chilling infrastructure penetration also influenced market growth.
- **Cheese** has a delicious flavour, a rich aroma and a smooth texture. Heritage Mozzarella Cheese and Processed Cheese are made from 100% pure cow milk. Cheese has a longer shelf life than milk. It contains a lot of nutrients, including protein, calcium, essential minerals, fat and others. Additionally, rising demand for Western cuisines, the longer shelf life of cheese products, increasing disposable incomes and growing

demand for protein-rich food items are propelling its market growth. As the number of organised retail outlets grows, many international players are now making investments in the Indian cheese market. According to the IMARC report, the cheese market in India is projected to reach INR 262.6 billion by 2028, growing at a CAGR of 24.06% between 2023 and 2028.

- **Buttermilk** is often more easily digested than other dairy products. It improves oral health, strengthens bones and helps to keep cholesterol and blood pressure levels under control. Being an excellent source of calcium, it forms a crucial part of a balanced meal. Although traditionally buttermilk is consumed as a refreshment drink, it also offers relief from the heat during the extremely hot summers in India.
- **Flavoured milk** is a delicious and revitalising dairy beverage that can be purchased in glass bottles or PP bottles. It is made from fresh, pure, double-toned milk and comes in a variety of flavours and colours. Flavoured milk is preferred as it is highly nutritious. Also, it contains all the essential nutrients present in plain milk, including calcium, phosphorus, magnesium, potassium, protein, riboflavin, niacin and vitamins A, B12 and D.
- **Milkshake** consumers constitute the young and salaried class. Its demand is driven by various factors such as large young population, changing lifestyles, convenience, value addition, health consciousness, etc. Immunity Milk contains anti-inflammatory properties, which helps maintain a healthy life. It is available in four flavours viz., turmeric, ginger, tulsi and ashwagandha.
- **Sweets** such as Doodh Peda and Milk Cake are made from fresh milk and ghee. The Doodh Peda is soft, flavourful and melts in the mouth. It has the right amount of sucrose, a rich taste and a granular texture. Milk Cake has a smooth texture and a rich flavour because it is made using the highest quality skimmed milk powder and pure ghee.
- **Lassi** is a fermented drink made with pasteurised, homogenised curd and contains good bacteria that help improve gut health. It has a dense and rich texture with a natural Elaichi flavour. Lassi, also known as desi buttermilk, is a sweet or savoury beverage with a dense and creamy consistency. Lassi drinks are high in lactic acid, vitamin D, protein and other nutrients that provide refreshment and hydration during the summer, boost energy levels, aid in fighting gastrointestinal problems and reducing bacteria buildup, improve bone health, help manage weight and improve overall skin health as well. As a result, Lassi is widely preferred by Indian consumers. According to the IMARC report, the lassi market in India is projected to reach INR 101 billion by 2027, growing at a CAGR of 20.47% between 2022 and 2027.

- **Ice cream and Frozen desserts** are among the most popular dairy products in India. The development of effective cold chain infrastructure, which consists of temperature-controlled storage areas, efficient management procedures, and the acquisition of trained professionals and servicing personnel, as well as the expanding food and beverage (F&B) segment, are the main factors driving India's ice cream market. The ice cream market in India is one of the fastest-growing food markets in the country. Shifting consumer preferences towards high-quality food, which has led a number of foreign ice cream brands to expand their operations in India, is also a significant growth-inducing factor for this segment. According to the IMARC report, the ice cream market in India is projected to reach INR 508.4 billion by 2028, growing at a CAGR of 17.5% between 2023 and 2028.

Fat products

- **Ghee** is a form of nutrient-dense clarified butter that is used as a cooking medium. In the Indian subcontinent, it is best known for its rich flavour and delicious taste. It is commonly used in South Asian and Middle Eastern cuisines, traditional medicines and religious rituals. Being the second most consumed dairy product after liquid milk, it is a nutritious source of calcium, iron, omega-3 fatty acids, vitamins, proteins and carbohydrates. Also, it aids in reducing inflammation and treating many diseases. It improves heart and brain health. In addition, ghee consumption is rising across India because it boosts the immune system, eases bowel movements, prevents chronic cough problems and treats eye disorders. According to the IMARC report, the ghee market in India is projected to reach INR 4,787 billion by 2027, growing at a CAGR of 10.5% between 2022 and 2027.
- **Butter** is recognised as one of the key ingredients used in the preparation of a wide variety of dishes. It is used in households all across the world, thereby increasing its demand globally. In the processing facilities, cooking butter is made from fresh cream with utmost care to ensure high quality. Heritage Butter contains no added ingredients, but salt. According to the IMARC report, the table butter market in India is projected to reach INR 157.7 billion by 2027, growing at a CAGR of 20.4% between 2022 and 2027.
- **Cream** is a dairy product extracted from milk. It is prepared by processing and sterilising milk at a high temperature. Due to its rich flavour and creamy texture, fresh cream is used in a

variety of dishes around the world, including custards, pasta, ice cream, shakes, sauces, and sandwiches, to name a few. Heritage Fresh Cream undergoes extensive processing to give it a smooth consistency, which further aids in curating mouth-watering cuisines. It adds a mouthful of happiness and lends a creamy texture to the food. The packaging of Heritage Fresh Cream ensures that the cream stays fresh until opened. According to the IMARC report, the Indian fresh cream market is expected to reach INR 13.18 billion by 2027, growing at a CAGR of 13.18% between 2022-2027.

Distribution

Heritage Foods Ltd. has an extensive distribution network, making products available in 11 states in India. The Company's robust distribution network helps strengthen the brand through its omnichannel presence. Milk is sourced directly from the farmers for production of high-quality milk, milk products and value-added dairy products. Heritage parlours and Heritage happiness centres are franchised stores and distribution wings that sell the entire product line of the Company. The Company's distribution network includes 121 heritage happiness centres, 859 exclusive heritage parlours. Heritage products are available in 0.13 million Kirana stores, 27 organised retail chains and 16 e-commerce websites. The use of an integrated technology-driven supply chain for procurement and distribution aids in inventory control.

Empowering farmer community

The primary concern of Heritage Farmer Welfare Activities (HFWA) is to promote the growth and welfare of the farmer community. The Company is constantly striving to empower farmers by procuring milk at mutually beneficial prices, encouraging best practices regarding milk quality and quantity and providing support services to assist them in improving their milk yields by organising free veterinary check-ups and vaccination drives for cattle. Other significant steps taken by the Company include facilitating farm loans and cattle insurance, as well as providing nutritional livestock feed. The Company has hosted 1,071 cattle health camps that have benefited 21,452 farmers and treated 67,989 cattle. All these interventions have helped the Company build strong bonds with the farmers.

Growth strategy

Expanding market presence in existing markets

The Company strives to leverage its wide distribution network to expand deeper within existing geographies like metropolitan cities and tier 2 cities. Additionally, the organisation is reinforcing its market reach in those regions where it already exists, chiefly through brand-building initiatives.

Revamping the product segments

The Company is creating a cost-effective supply chain to meet the growing demand for value-added products through ongoing innovation, product portfolio expansion and customer satisfaction.

Enhancing manufacturing facilities

The Company employs best practices to enhance capacity utilisation, operational metrics and profitability. Driven by the desire to continuously outperform, the Company uses flexible and affordable processors. The Company intends to use its Capex funds for the procurement, maintenance and improvement of its current processing and cold chain facilities.

Privileging the farmers

In order to increase farmers' income and improve their socioeconomic status, the Company directly purchases milk from farmers while also helping them improve the yield of their dairy animals.

Outlook

The Company intends to enhance the quality of its services in locations where it already operates. Being aware of the shifting demographic factors such as changing lifestyles, rising disposable incomes and the transition towards leading a healthier lifestyle, the Company is trying to leverage its penetration strategy to expand its consumer base. The Company has a positive outlook with a targeted EBITDA margin of 7-8%. It is expanding its value-added product portfolio and capitalising on the industry's projected double-digit growth. The Company's focus on bolstering demand, expanding its distribution network and boosting its efficiency measures will contribute to sustained growth. Investments in value-added products, milk procurement and marketing campaigns are aligned with the Company's long-term growth aspirations.

Risks and concerns

Type of Risk	Description	Mitigation plans
Strategic Risk		
Competition:	The Company is facing competition from local, domestic and international players.	The Company is implementing a number of marketing initiatives, including digital campaigns, in an attempt to mitigate this risk. Considering the differentiated products of the competition, the Company plans to increase the share of value-added product sales over the next few years.
Changing consumer preferences:	Consumer taste shifts might negatively affect the demand for the value-added products of the Company.	To meet the changing consumer demand, the Company is actively identifying shifting consumer wants and launching a variety of and value-added products.

Type of Risk	Description	Mitigation plans
Production risk		
Climate change:	Unprecedented climate change like rainfall and heat is affecting milk production and leading to price fluctuations.	The Company is adapting the latest technologies to tackle unpredictable weather conditions. One such initiative is 'Grass to Glass', a technology-enabled approach to maintaining strict quality control throughout the milk value chain to ensure purity and assist farmers in dealing with varying climatic conditions and their impact on dairy production.
Animal health and safety:	Animal diseases can reduce cattle productivity by increasing the amount of time cows spend in lower-lactation phases and reducing the number of offspring available for replacements or sale.	To mitigate the risk, the Company strives to supply high quality feed while also ensuring their general health and immunity. The Company provides free veterinary health services to reduce the impact of disease on cattle.
Operational Risk		
Supply Chain Risk:	Increasing fuel and logistics costs will have an impact on the Company's overall revenue costs and result in an inadequate supply of the product.	The Company is able to lower the effect of rising fuel prices and logistics costs through proper route planning and utilising maximum loading capacity of vehicles.
Quality Control Risk:	The risk of failure to meet the quality of products and other issues such as adulteration, contamination or tampering can lead to loss of consumer trust and also result in financial losses.	The Company has made investments in cutting-edge research and development, setting up advanced manufacturing processes and planning preventive measures in an effort to mitigate risks for the customers. This has led to an improvement in the quality of the existing products and also, in the development of new products.
Lack of Technological adoption:	Manual monitoring, production and limited access to product information are time-consuming and may result in human errors in analysis, impacting the Company's overall data management.	The Company constantly makes use of a technology-enabled network to boost operational efficiency by streamlining processes, gaining proper access to data management throughout the value chain and generating value for all stakeholders.
Volatility in raw material prices:	Price fluctuations may increase the cost of raw materials, raising the production costs, which may result in additional losses for the Company.	The Company has taken measures to reduce this risk by sourcing raw materials from different sources.
Geographical concentration risk:	Due to the Company's reliance on some states, any unanticipated changes in their economies could have a negative impact on the Company's growth.	The Company is expanding its operations within the same states, instead of penetrating into new geographies by leveraging its strong distribution network and brand-building initiatives.
Financial Risk		
Liquidity crisis:	The Company may have difficulty managing the delivery of surplus milk due to the liquidity crisis and working capital constraints.	The Company aims to maintain a strong working capital to be able to make immediate cash payments to the vendors.
Compliance Issue:		
Regulatory Risk	Because of the rapidly changing global regulatory environment, there has been a significant increase in regulatory scrutiny and stakeholder expectations regarding compliance.	The Company has effective corporate governance procedures to make sure that its operations are in line with industry standards.

Human resources

The Company treasures its human capital as its most important asset. It continues to foster a supportive work culture where all its personnel feel secure and appreciated. Aiming to attract, develop and retain talent in a dynamic operating environment, the Company's human resources policies also promote trust, transparency and cooperation. The employee recognition programme is a vital part of the Company. Regular communication with top management helps identify and reward top performers across functions. An objective appraisal system based on KPIs is in place to incentivise employees. The Company currently has a workforce comprising over 3000 people.

Internal control systems and their adequacy

The Company has a well-designed internal control system appropriate for the scope and character of its operations. These internal controls guarantee the protection of assets from unauthorised use or disposal, accurate recording and reporting of all transactions and adherence to all relevant regulatory requirements. To keep up with the changes in the business environment and statutory requirements, internal control systems are continuously reviewed and modified. The Company's internal audit team mainly concentrates on the framework. The results of the internal audit are periodically reported to the Board's Audit Committee. The internal control system is evaluated by the audit committee, which also makes recommendations for improvements and takes corrective action whenever required. The Company's strong management information system is a crucial component of the control system.

Quality and safety

The Company's top priorities are quality and safety. It ensures that the quality control measures are in place and that the products go through rigorous quality inspections. The Company offers a variety of products across various market segments and the goods are produced in accordance with strict industry standards ensuring quality, safety and nutrition. The operating principle is always to put milk quality and safety first. The Company has been certified under the 'Safety and Health Management System' which complies with ISO 45001:2018 and the Environment Management System which complies with ISO 14001:2015.

Sustainable model

Independent Auditor's Report

To the Members of Heritage Foods Limited

Report on the Audit of the Standalone Financial Statements

Opinion

1. We have audited the accompanying standalone financial statements of Heritage Foods Limited ('the Company'), which comprise the Balance Sheet as at 31 March 2023, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Cash Flow and the Statement of Changes in Equity for the year then ended, and notes to the standalone financial statements, including a summary of the significant accounting policies and other explanatory information.
2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards ('Ind AS') specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2023, and its profit (including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matter

4. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.
5. We have determined the matter described below to be the key audit matters to be communicated in our report.

Key audit matter

Revenue recognition

Revenue from sale of goods is recognised when control of the products being sold is transferred to the customer and when there are no longer any unfulfilled obligations. The performance obligations in the contracts are fulfilled at the time of dispatch, delivery or upon formal customer acceptance depending on terms.

The Company's sales arrangements are on a point of sale basis and requires little judgement to be exercised.

Discounts are material and there are arrangements with varying terms based on schemes implemented throughout the year.

There is a risk of revenue being overstated, resulting from pressure the management may feel to achieve performance targets at the reporting period end.

How our audit addressed the key audit matter

Our audit included, but was not limited to, the following procedures:

- Assessed the appropriateness of the revenue recognition accounting policies, including those relating to discounts in accordance with Ind AS 115 – Revenue from contracts with customers ('Ind AS 115').
- Evaluated the integrity of the general information and technology control environment and tested the operating effectiveness of key IT application controls.
- Evaluated the design and implementation of Company's controls in respect of revenue recognition, including discounts.
- Performed substantive testing by selecting samples of revenue transactions recorded during the year by verifying the underlying documents, which included trip sheets, invoices, shipping documents and evidence of collection of receipts, as appropriate.
- Performed substantive testing by selecting samples of discount transactions recorded during the year and comparing the parameters used in the calculation of the discounts with the relevant source documents (including schemes approvals and credit notes) to assess whether the methodology adopted in the calculation of the

Information other than the Financial Statements and Auditor's Report thereon

6. The Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

7. The accompanying standalone financial statements have been approved by the Company's Board of Directors. The Company's Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS specified under section 133 of the Act and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that

are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

8. In preparing the financial statements, the Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intend to liquidate the Company or to cease operations, or has no realistic alternative but to do so.
9. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

10. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
11. As part of an audit in accordance with Standards on Auditing, specified under section 143(10) of the Act we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The

risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Act we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls;
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
 - Conclude on the appropriateness of Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern; and
 - Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation;
12. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
 13. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
 14. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We

describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

15. As required by section 197(16) of the Act based on our audit, we report that the Company has paid remuneration to its directors during the year in accordance with the provisions of and limits laid down under section 197 read with Schedule V to the Act.
16. As required by the Companies (Auditor's Report) Order, 2020 ('the Order') issued by the Central Government of India in terms of section 143(11) of the Act we give in the **Annexure-A** a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
17. Further to our comments in Annexure A, as required by section 143(3) of the Act based on our audit, we report, to the extent applicable, that:
 - a) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the accompanying standalone financial statements;
 - b) in our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - c) the standalone financial statements dealt with by this report are in agreement with the books of account;
 - d) in our opinion, the aforesaid standalone financial statements comply with Ind AS specified under section 133 of the Act;
 - e) on the basis of the written representations received from the directors and taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2023 from being appointed as a director in terms of section 164(2) of the Act;
 - f) with respect to the adequacy of the internal financial controls with reference to financial statements of the Company as on 31 March 2023 and the operating effectiveness of such controls, refer to our separate Report in **Annexure-B** wherein we have expressed an unmodified opinion; and
 - g) with respect to the other matters to be included in the Auditor's Report in accordance with rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our

opinion and to the best of our information and according to the explanations given to us:

- i. the Company, as detailed in note 43(b) to the standalone financial statements, has disclosed the impact of pending litigations on its financial position as at 31 March 2023;
- ii. the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses as at 31 March 2023;
- iii. there has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company during the year ended 31 March 2023;
- iv.
- a. The management has represented that, to the best of its knowledge and belief, as disclosed in note 35(i) to the standalone financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or securities premium or any other sources or kind of funds) by the Company to or in any person(s) or entity(ies), including foreign entities ('the intermediaries'), with the understanding, whether recorded in writing or otherwise, that the intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ('the Ultimate Beneficiaries') or provide any guarantee, security or the like on behalf the Ultimate Beneficiaries;
- b. The management has represented that, to the best of its knowledge and belief, as disclosed in note 35(ii) to the standalone financial statements, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ('the Funding Parties'), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ('Ultimate Beneficiaries') or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

- c. Based on such audit procedures performed as considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the management representations under sub-clauses (a) and (b) above contain any material misstatement.
- v. As stated in note 34 to the accompanying standalone financial statements, the final dividend paid by the Company during the year ended 31 March 2023 in respect of such dividend declared for the previous year is in accordance with section 123 of the Act to the extent it applies to payment of dividend. The Board of Directors of the Company have proposed final dividend for the year ended 31 March 2023 which is subject to the approval of the members at the ensuing Annual General Meeting. The dividend declared is in accordance with section 123 of the Act to the extent it applies to declaration of dividend.
- vi. proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 requires all companies which use accounting software for maintaining their books of account, to use such an accounting software which has a feature of audit trail, with effect from the financial year beginning on 1 April 2023 and accordingly, reporting under Rule 11(g) of Companies (Audit and Auditors) Rules, 2014 (as amended) is not applicable for the current financial year.

Annexure A referred to in Paragraph 16 of the Independent Auditor's Report of even date to the members of Heritage Foods Limited on the standalone financial statements for the year ended 31 March 2023

In terms of the information and explanations sought by us and given by the Company and the books of account and records examined by us in the normal course of audit, and to the best of our knowledge and belief, we report that:

- (i) (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment, right of use assets and investment property.
- (B) The Company has maintained proper records showing full particulars of intangible assets.
- (b) The property, plant and equipment, right of use assets, and investment property have been physically verified by the management during the year and no material discrepancies were noticed on such verification. In our opinion, the frequency of physical verification programme adopted by the Company, is reasonable having regard to the size of the Company and the nature of its assets.
- (c) The title deeds of all the immovable properties including investment properties held by the Company (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee) disclosed in note 6 and 8 to the standalone financial statements are held in the name of the Company.
- (d) The Company has not revalued its Property, Plant and Equipment including Right of Use assets or intangible assets during the year.
- (e) No proceedings have been initiated or are pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 (as amended) and rules made thereunder.
- (ii) (a) The management has conducted physical verification of inventory at reasonable intervals during the year, except for inventory lying with third parties. In our opinion, the coverage and procedure of such verification by the management is appropriate and no discrepancies of 10% or more in the aggregate for each class of inventory were noticed as compared to book records. In respect of inventory lying with third parties, these have substantially been confirmed by the third parties.
- (b) As disclosed in note 18(iii) to the standalone financial statements, the Company has been sanctioned a working capital limit in excess of ₹ 5 crore by banks based on the security of current assets. The quarterly statements, in respect of the working capital limits have been filed by the Company with such banks and such statements are in agreement with the books of account of the Company for the respective periods, which were not subject to audit.
- (iii) (a) The Company has not provided any security to any other entity. However, the Company has provided loans and guarantee to its Subsidiary, Joint Venture and others during the year as per details given below:

(Amounts in ₹million)		
Particulars	Guarantees	Loans
Aggregate amount provided during the year:		
- Subsidiaries	80.00	-
- Joint Venture	50.00	-
- Others	-	3.37
Balance outstanding as at balance sheet date in respect of above cases:		
- Subsidiaries	207.50	-
- Joint Venture	220.00	-
- Others	0	0.31

- (b) In our opinion, and according to the information and explanations given to us, the investments made, guarantees provided, and terms and conditions of the grant of all loans are, prima facie, not prejudicial to the interest of the Company. The Company has not given any security during the year.
- (c) In respect of loans granted by the Company, the schedule of repayment of principal has been stipulated and the repayments of principal are regular. Further, no interest is receivable on such loans.
- (d) There is no amount which is overdue for more than 90 days in respect of loans or advances in the nature of loans granted to such companies, firms, LLPs or other parties.
- (e) The Company has not granted any loan or advance in the nature of loan which has fallen due during the year. Further, no fresh loans were granted to any party to settle the overdue loans/advances in nature of loan that existed as at the beginning of the year.
- (f) The Company has not granted any loan or advance in the nature of loan, which is repayable on demand or without specifying any terms or period of repayment.
- (iv) In our opinion, and according to the information and explanations given to us, the Company has complied with the provisions of section 186 of the Act in respect of investments made, loans granted and guarantees given, as applicable. Further, the Company has not entered into any transaction covered under section 185 and section 186 of the Act in respect of security provided by it.
- (v) In our opinion, and according to the information and explanations given to us, the Company has not accepted any deposits or there are no amounts which have been deemed to be deposits within the meaning of sections 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, reporting under clause 3(v) of the Order is not applicable to the Company.
- (vi) The Central Government has specified maintenance of cost records under sub-section (1) of section 148 of the Act only in respect of specified product of the Company. For such product, we have broadly reviewed the books of account maintained by the Company pursuant to the Rules made by the Central Government for the maintenance of cost records under the aforesaid section, and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. However, we have not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.
- (vii) (a) In our opinion, and according to the information and explanations given to us, the Company is regular in depositing undisputed statutory dues including goods and services tax, provident fund, employees' state insurance, income-tax and other material statutory dues, as applicable, with the appropriate authorities. Further, no undisputed amounts payable in respect thereof were outstanding at the year-end for a period of more than six months from the date they became payable.
- (b) According to the information and explanations given to us, there are no statutory dues referred in sub-clause (a) which have not been deposited with the appropriate authorities on account of any dispute except for the following:

(viii) According to the information and explanations given to us, no transactions were surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961) which have not been previously recorded in the books of accounts.

(ix) (a) According to the information and explanations given to us, the Company has not defaulted in repayment of its loans or borrowings or in the payment of interest thereon to any lender.

(b) According to the information and explanations given to us including representation received from the management of the Company, and on the basis of our audit procedures, we report that the Company has not been declared a willful defaulter by any bank or financial institution or government or any government authority.

(c) In our opinion and according to the information and explanations given to us, the Company has not raised any money by way of term loans during the year and did not have any term loans outstanding at the beginning of the current year. Accordingly, reporting under clause 3(ix)(c) of the Order is not applicable to the Company.

(d) In our opinion and according to the information and explanations given to us, and on an overall examination of the financial statements of the Company, funds raised by the Company on short term basis have, prima facie, not been utilised for long term purposes.

(e) According to the information and explanations given to us and on an overall examination of the financial statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries, associate or joint venture.

- (f) According to the information and explanations given to us, the Company has not raised any loans during the year on the pledge of securities held in its subsidiaries, joint venture or associate.
- (x) (a) The Company has not raised any money by way of initial public offer or further public offer (including debt instruments), during the year. Accordingly, reporting under clause 3(x)(a) of the Order is not applicable to the Company.
- (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not made any preferential allotment or private placement of shares or (fully, partially or optionally) convertible debentures during the year. Accordingly, reporting under clause 3(x)(b) of the Order is not applicable to the Company.
- (xi) (a) To the best of our knowledge and according to the information and explanations given to us, no fraud by the Company or no material fraud on the Company has been noticed or reported during the period covered by our audit.
- (b) According to the information and explanations given to us including the representation made to us by the management of the Company, no report under sub-section 12 of section 143 of the Act has been filed by the auditors in Form ADT-4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules, 2014, with the Central Government for the period covered by our audit.
- (c) According to the information and explanations given to us including the representation made to us by the management of the Company, there are no whistleblower complaints received by the Company during the year.
- (xii) The Company is not a Nidhi Company and the Nidhi Rules, 2014 are not applicable to it. Accordingly, reporting under clause 3(xii) of the Order is not applicable to the Company.
- (xiii) In our opinion and according to the information and explanations given to us, all transactions entered into by the Company with the related parties are in compliance with sections 177 and 188 of the Act, where applicable. Further, the details of such related party transactions have been disclosed in the standalone financial statements, as required under Indian Accounting Standard (Ind AS) 24, Related Party Disclosures specified in Companies (Indian Accounting Standards) Rules 2015 as prescribed under section 133 of the Act.
- (xiv) (a) In our opinion and according to the information and explanations given to us, the Company has an internal audit system as per the provisions of section 138 of the Act which is commensurate with the size and nature of its business.
- (b) We have considered the reports issued by the Internal Auditors of the Company till date for the period under audit.
- (xv) According to the information and explanation given to us, the Company has not entered into any non-cash transactions with its directors or persons connected with its directors and accordingly, reporting under clause 3(xv) of the Order with respect to compliance with the provisions of section 192 of the Act are not applicable to the Company.

Annexure B to the Independent Auditor's Report of even date to the members of Heritage Foods Limited on the financial statements for the year ended 31 March 2023

Independent Auditor's Report on the internal financial controls with reference to the financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

1. In conjunction with our audit of the standalone financial statements of Heritage Foods Limited ('the Company') as at and for the year ended 31 March 2023, we have audited the internal financial controls with reference to financial statements of the Company as at that date.

Responsibilities of Management and Those Charged with Governance for Internal Financial Controls

2. The Company's Board of Directors is responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility for the Audit of the Internal Financial Controls with Reference to Financial Statements

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India ('ICAI') prescribed under Section 143(10) of the Act, to the extent

applicable to an audit of internal financial controls with reference to financial statements, and the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ('the Guidance Note') issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements includes obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with Reference to Financial Statements

6. A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions

are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Financial Statements

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such controls were operating effectively as at 31 March 2023, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Summary of the significant accounting policies and other explanatory information

1. Corporate information

Heritage Foods Limited ("Heritage" or "the Company") is one of the leading Indian dairy Company, headquartered and having its registered office at #H.No. 8-2-293/82/A/1286, Plot No: 1286, Road No. 1 & 65, Jubilee Hills, Hyderabad – 500033, Telangana, India. The Company operates through its two business divisions Dairy and Renewable Energy. The Company's equity shares are listed and traded on the Indian Stock Exchanges viz., BSE Limited and the National Stock Exchange of India.

2. Basis of preparation of the standalone financial statements

The standalone financial statements of the Company have been prepared in accordance with accounting principles generally accepted in India, Indian Accounting Standards (Ind AS) notified under section 133 of the Companies Act, 2013 ("the Act"), read with the Companies (Indian Accounting Standards) Rules, 2015, as amended from time to time and presentation requirement of Division II of Schedule III to the Act, including the amendments to Schedule III notified by the Ministry of Corporate Affairs ("MCA") vide its notification dated 24 March 2021 and guidelines issued by the Securities Exchange Board of India ("SEBI").

These standalone financial statements have been prepared by the Company as a going concern on the basis of relevant Ind-AS that are effective or elected for early adoption at the Company's annual reporting date, 31 March 2023. These standalone financial statements were authorised for issuance by the Company's Board of Directors on 25 May 2023.

These standalone financial statements have been prepared on historical cost convention, except for the following material items:

- Derivative financial instruments are measured at fair value.
- Financial assets are measured at either at fair value or at amortised cost depending upon the classification.
- Employee defined benefits assets / (liability) are recognised as the net total of the fair value of plan assets, plus actuarial losses, less actuarial gains and the present value of the defined benefit obligations.

- Long-term borrowings are measured at amortised cost using the effective interest rate method; and
- Right-of-use assets are recognised at present value of lease payments, that are not paid at that date, adjusted for any lease payments made at or before the commencement date, lease incentives received and initial direct cost incurred, if any.

The standalone financial statements are presented in Indian Rupees (₹) and all values are rounded to the nearest millions, except when otherwise indicated.

3. Summary of significant accounting policies

a. Current versus non-current classification

The Company presents assets and liabilities in the standalone balance sheet based on current/ non-current classification.

An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

b. Foreign currencies

The Company's standalone financial statements are presented in Indian Rupees (₹), which is also its functional currency.

Transactions in foreign currency are initially recorded at exchange rates prevailing on the date of transactions. Monetary items denominated in foreign currencies (such as cash, receivables, payables etc.) outstanding at the end of reporting period, are translated at the functional currency spot rate of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognised in the standalone statement of profit and loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

Any gains or losses arising due to differences in exchange rates at the time of translation or settlement are accounted for in the standalone statement of profit and loss either under the head foreign exchange fluctuation or interest cost, as the case may be, except those relating to long-term foreign currency monetary items.

c. Fair value measurement

The Company measures financial instruments at fair value at each standalone balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the standalone financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the standalone financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Company's management determines the policies and procedures for both recurring fair value measurement, such as derivative instruments and unquoted financial assets measured at fair value, and for non-recurring measurement, such as assets held for distribution in discontinued operations.

External valuers are involved for valuation of significant assets, such as unquoted financial assets, and significant liabilities, such as contingent consideration. Involvement of external valuers is decided upon annually by the management. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained.

At each reporting date, the management analyses the movements in the values of assets and liabilities which are required to be re-measured or re-assessed as per the Company's accounting policies. For this analysis, the management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

d. Revenue recognition

The Company derives revenues primarily from sale of milk and dairy products. It is also engaged in generation of power and trading of dairy and food commodities.

Revenue is recognized on satisfaction of performance obligation upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Company expects to receive in exchange for those products or services.

Revenue is measured on the basis of transaction price, after deduction of any discounts and any taxes or duties collected on behalf of the Government such as goods and services tax, etc. Discounts are recognised in accordance with the schemes implemented by the Company. Revenue is only recognised to the extent that it is highly probable a significant reversal will not occur.

The Company does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, it does not adjust any of the transaction prices for the time value of money.

The Company satisfies a performance obligation and recognises revenue over time, if one of the following criteria is met:

- The customer simultaneously receives and consumes the benefits provided by the Company's performance as the Company performs; or
- The Company's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or
- The Company's performance does not create an asset with an alternative use to the Company and an entity has an enforceable right to payment for performance completed to date.

For performance obligations where one of the above conditions are not met, revenue is recognised at the point in time at which the performance obligation is satisfied.

Revenue from sale of products and services is recognised at the time when performance obligation is satisfied.

Interest Income

For all debt instruments measured either at amortised cost or at fair value through other comprehensive income, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses. Interest income is included under other income in the standalone statement of profit and loss.

Dividend Income

Dividend income is recognized when the Company's right to receive dividend is established.

e. Government grants

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is initially recognised as deferred income at fair value and subsequently are recognised in statement of profit and loss as other income on a systematic basis over the expected useful life of the related asset.

On receipt of grants of non-monetary assets, the asset and the grant are recorded at fair value amounts and released to the standalone statement of profit and loss over the expected useful life in a pattern of consumption of the benefit of the underlying asset i.e. by equal annual instalments. When loans or similar assistance are provided by governments or related institutions, with an interest rate below the current applicable market rate, the effect of this favourable interest is regarded as a government grant. The loan or assistance is initially recognised and measured at fair value and

the government grant is measured as the difference between the initial carrying value of the loan and the proceeds received. The loan is subsequently measured as per the accounting policy applicable to financial liabilities.

f. Taxes

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax is recognised in the standalone statement of profit and loss except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is provided using the Balance Sheet approach on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except when the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except when the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based

on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax is recognised in the standalone statement of profit and loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the deferred tax is also recognised in other comprehensive income or directly in equity, respectively.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

g. Property, plant and equipment and Capital work-in-progress

Freehold land is carried at historical cost. Property, plant and equipment are stated at cost net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price, the cost of replacing the part of plant and equipment and borrowing costs if capitalization criteria are met and any attributable cost of bringing the asset to its working condition and location for the intended use. Capital work in progress includes cost of property, plant and equipment under installation/under development as at the balance sheet date net of accumulated impairment loss, if any. Property, plant and equipment under installation or under construction as at balance sheet are shown as capital work-in-progress and the related advances are shown as capital advances.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced.

When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is

performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in the standalone statement of profit and loss as incurred. The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met.

Spare parts are capitalized when they meet the definition of PPE, i.e., when the company intends to use these during more than a period of 12 months.

Depreciation is provided on the basis of straight-line method at the useful life and in the manner prescribed in Schedule II of the Companies Act, 2013 except in respect of the following assets, based on technical assessment made by technical expert and /or internal evaluation. Management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

The useful life provided for different asset classes under schedule II of the Act and considered by the management are as follows:

Asset class	Useful life considered by management (in years)	Useful life prescribed under the Act (in years)
Buildings (including investment property)	5 – 30	30
Plant and machinery	1 – 20	15
Furniture and Fixtures	1 – 15	10
Vehicles	2 – 10	8
Office Equipment	1 – 20	5

- i) Depreciation on Improvements to leasehold property is provided over the period of lease.
- ii) Depreciation in respect of its Renewable Energy business is provided on straight line method and at rates/ methodology prescribed under the relevant Central Electricity Regulatory Commission (CERC) regulations.

Depreciation on assets which are commissioned during the year is charged on pro -rata basis from the date of commissioning. The company depreciates general spares over the life of the spare from the date it is available for use.

An item of property, plant and equipment and any

significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Gains or losses arising from de-recognition of a tangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the standalone statement of profit and loss when the asset is derecognised.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

h. Investment property

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

The cost includes the cost of replacing parts and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of the investment property are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. All other repair and maintenance costs are recognised in the standalone statement of profit and loss as incurred.

The Company depreciates building component of investment property over the useful life prescribed in Schedule II to the Act.

Though the Company measures investment property using cost based measurement, the fair value of the investment property is disclosed in the note 8 to the standalone financial statements.

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in the standalone statement of profit and loss in the period of de-recognition.

i. Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. Internally generated intangibles, excluding capitalised

development costs, are not capitalised and the related expenditure is reflected in the standalone statement of profit and loss in the period in which the expenditure is incurred.

The useful lives of intangible assets are assessed as either finite or indefinite. Intangible assets with finite lives are amortised on straight line basis over the estimated useful economic life. The amortisation expense on intangible assets with finite life is recognised in the standalone statement of profit and loss under the head Depreciation and amortization expense.

The estimated useful life of intangible assets is mentioned below:

Asset	Useful life (years)
Brand	5
Non-compete	3
Procurement	5
Computer software	5
Distribution network	5

Intangible assets with finite lives are assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the standalone statement of profit and loss unless such expenditure forms part of carrying value of another asset.

Intangible assets with indefinite useful lives are not amortised, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

An intangible asset is derecognised upon disposal (i.e., at the date the recipient obtains control) or when no future economic benefits are expected from its use or disposal.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the standalone statement of profit and loss when the asset is derecognised.

j. Borrowing cost

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

k. Leases

The Company as a lessee

The Company's lease asset classes primarily consist of leases for land and buildings. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use (ROU) asset and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of 12 months or less (short-term leases) and low value leases. For these short-term and low-value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised. The ROU assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses. ROU assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. ROU assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the

higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. For leases with reasonably similar characteristics, the Company, on a lease by lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments. The Company recognises the amount of the re-measurement of lease liability due to modification as an adjustment to the Right-of-use asset and Standalone Statement of Profit and Loss depending upon the nature of modification. Where the carrying amount of the Right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognises any remaining amount of the re-measurement in the Standalone Statement of Profit and Loss.

The Company as a lessor

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases. For operating leases, rental income is recognized on a straight-line basis over the term of the relevant lease.

Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income.

I. Assets included in disposal groups classified as held for sale

Assets included in disposal groups classified as "Held for sale" if their carrying amount is intended to be recovered principally through sale rather than through continuing use. The condition for classification of "Held for Sale" is met when the non-current asset or the disposal group is available for immediate sale and the same is highly probable of being completed within one year from the date of classification as "Held for Sale".

Assets included in disposal groups classified as held for sale are measured at the lower of carrying amount and fair value less cost to sell. Non-current assets and disposal group that ceases to be classified as "Held for Sale" shall be measured at the lower of carrying amount before the non-current asset and disposal group was classified as "Held for Sale" adjusted for any depreciation/ amortization and its recoverable amount at the date when the disposal group no longer meets the "Held for sale" criteria.

m. Inventories

All inventories except stores, spares, consumables, semi-finished goods and packaging material, are valued at lower of cost and net realisable value. Stores, spares and consumables, semi-finished goods and packing material held for use in the production of finished products are not written down below cost except in cases where material prices have declined and it is estimated that the cost of the finished products will exceed their net realisable value. Costs for all categories of inventories have been ascertained using weighted average cost method.

Cost of inventories comprises of the following:

- Raw material, stock-in-trade, semi-finished goods, packaging materials and stores, spares and consumables: Cost includes purchase price, import duties and other taxes excluding taxes those are subsequently recoverable from the concerned authorities, freight inwards and other expenditure incurred in bringing such inventories to their present location and condition.
- Finished goods and work in progress: Cost comprises cost of direct material, direct labour and appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity, but excluding borrowing costs.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of

completion and the estimated costs necessary to make the sale.

n. Impairment of non-financial assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

Impairment losses of continuing operations, including impairment on inventories, are recognised in the standalone statement of profit and loss.

For assets excluding goodwill, an assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years.

o. Provision and contingencies

Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

When the Company expects some or all of a provision to be reimbursed, reimbursement is recognised as a

separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the standalone statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingencies

Contingent liabilities are identified and disclosed with respect to following:

- a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity; or
- a present obligation that arises from past events but is not recognised because:
- it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or
- the amount of the obligation cannot be measured with sufficient reliability.

Contingent assets are neither recognized nor disclosed, unless inflow of economic benefits is probable. However, when realization of income is virtually certain, related asset is recognized.

p. Employee benefits

Short term benefits

Short Term Employee Benefits are accounted for in the period during which the services have been rendered.

Post-employment benefits and other long-term employee benefits

Provident Fund: Retirement benefit in the form of provident fund is a defined contribution scheme. The contributions to the provident fund administered by the Central Government under the Provident Fund Act, 1952, are charged to the standalone statement of profit and loss for the year in which the contributions are due. The company has no obligation, other than the contribution payable to the provident fund. If the contribution payable to the scheme for service received before the standalone balance sheet date exceeds the contribution already

paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the standalone balance sheet date, then excess is recognized as an asset to the extent that the pre-payment will lead to a reduction in future payment.

Gratuity: The Company operates a defined benefit gratuity plan in India, which requires contributions to be made to a separately administered fund. The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method.

Remeasurements, comprising mainly of actuarial gains and losses, are recognised immediately in the standalone balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to the standalone statement of profit and loss in subsequent periods.

Leave Encashment: The Company operates a long-term leave encashment plan in India. Accrued liability for leave encashment including sick leave is determined on actuarial valuation basis using Projected Unit Credit (PUC) Method at the end of the year and provided completely in profit and loss account as per Ind AS - 19 "Employee Benefits".

q. Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

All financial assets, excluding trade receivables are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Trade receivables that do not contain a significant financing component are measured at transaction price.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Debt instruments at amortised cost
- Debt instruments at fair value through other comprehensive income (FVTOCI)

- Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL)
- Equity instruments measured at FVTOCI and FVTPL

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model, whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the standalone statement of profit and loss. The losses arising from impairment are recognised in the standalone statement of profit and loss.

Debt instrument at FVTOCI

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). On de-recognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to standalone statement of profit and loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt instrument at FVTPL

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the standalone statement of profit and loss.

Equity instruments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company decides to classify the same either as at FVTOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to standalone statement of profit and loss, even on sale of investment. However, the Company transfers the cumulative gain or loss within equity.

De-recognition

A financial asset is primarily derecognised when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the company has transferred substantially all the risks and rewards of the asset, or (b) the company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the company continues to recognise the transferred asset to the extent of the company's continuing involvement. In that case, the company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at

the lower of the original carrying amount of the asset and the maximum amount of consideration that the company could be required to repay.

Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, trade receivables and bank balances
- Financial guarantee contracts which are not measured at FVTPL
- Lease receivables under Ind AS 116

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables that do not contain a significant financing component.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider:

- All contractual terms of the financial instrument (including prepayment, extension, call and similar options) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument
- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/ expense in the standalone statement of profit and loss. This amount is reflected under the head 'other expenses' in the standalone statement of profit and loss. The standalone balance sheet presentation for various financial instruments is described below:

- Financial assets measured at amortised cost: ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets in the standalone balance sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the company does not reduce impairment allowance from the gross carrying amount.
- Financial guarantee contracts: ECL is presented as a provision in the standalone balance sheet, i.e. as a liability.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings or payables, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings including financial guarantee contracts and derivative financial instruments.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and

financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the standalone statement of profit and loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/ losses are not subsequently transferred to the standalone statement of profit and loss. However, the company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the standalone statement of profit and loss. The company has not designated any financial liability as at fair value through profit and loss.

Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in the standalone statement of profit and loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the standalone statement of profit and loss.

This category generally applies to borrowings from banks.

Financial guarantee contracts

Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as

a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee.

Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognised less cumulative amortisation.

Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid as per agreed terms. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the standalone statement of profit and loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the standalone balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

Derivative financial instrument - Initial recognition and subsequent measurement

Derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to the standalone statement of profit and loss.

r. Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting preference dividends, if any, and attributable taxes) by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

s. Cash flow statement

The standalone cash flow statement is prepared in accordance with the Indirect method. Standalone cash flow statement presents the cash flows by operating, financing and investing activities of the Company. Operating cash flows are arrived by adjusting profit or loss before tax for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments, and items of income or expense associated with investing or financing cash flows.

t. Cash and cash equivalents

Cash and cash equivalent in the standalone balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the standalone cash flow statement, cash and cash equivalents consist of cash at banks and on hand and deposits, as defined above, net of outstanding loans repayable on demand from banks as they are considered an integral part of the Company's cash management.

u. Cash dividends to equity holders

Annual dividend distribution to the shareholders is recognised as a liability in the period in which the dividend is approved by the shareholders. Any interim dividend paid is recognised on approval by Board of Directors. Dividend payable / paid is recognised directly in equity.

v. Investments in subsidiary, joint venture and associate

The Company has elected to recognise its investments in equity instruments in subsidiary, joint venture and

associate at cost in accordance with the option available in Ind AS 27, 'Separate Financial Statements'.

w. Research and Development

Expenditure on research activities is recognised in the Standalone Statement of Profit and Loss as incurred.

Development expenditure is capitalised as part of the cost of the resulting intangible asset only if the expenditure can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and the Company intends to and has sufficient resources to complete the development and to use or sell the asset. Otherwise, it is recognised in the Standalone Statement of Profit and Loss as incurred.

Subsequent to the initial recognition, the asset is measured at cost less accumulated amortisation and accumulated impairment losses, if any.

x. Business Combinations

Business combinations are accounted for using the acquisition method. At the acquisition date, identifiable assets acquired and liabilities assumed are measured at fair value. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition date fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable. The consideration transferred is measured at fair value at acquisition date and includes the fair value of any contingent consideration. Contingent consideration (earn out) is remeasured at fair value at each reporting date and changes in the fair value of the contingent consideration are recognised in the Statement of Profit and Loss. However, deferred tax asset or liability and any liability or asset relating to employee benefit arrangements arising from a business combination are measured and recognised in accordance with the requirements of Ind AS 12, Income Taxes and Ind AS 19, Employee Benefits, respectively.

Where the consideration transferred exceeds the fair value of the net identifiable assets acquired and liabilities assumed, the excess is recorded as goodwill. Alternatively, in case of a bargain purchase wherein the consideration transferred is lower than the fair value of the net identifiable assets acquired and liabilities assumed, the Company after assessing fair value of all identified assets and liabilities, record the difference as a gain in other comprehensive income and accumulate the gain in equity as capital reserve. The costs of acquisition excluding those relating to issue of equity or debt securities are charged to the Statement of Profit and Loss in the period in which they are incurred.

In case of business combinations involving entities under common control, the above policy does not apply. Business combinations involving entities under common control are accounted by using the pooling of interests method. The net assets of the transferor entity or business are accounted at their carrying amounts on the date of the acquisition subject to necessary adjustments required to harmonise accounting policies. Any excess or shortfall of the consideration paid over the share capital of transferor entity or business is recognised as capital reserve under equity.

4. Key accounting estimates, judgements and assumptions

The preparation of the Company's standalone financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

a. Defined benefit plans and other long-term benefit plan

The cost and present value of the defined benefit gratuity plan and leave encashment (other long-term benefit plan) are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation and other long-term benefits are highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

b. Useful lives of depreciable and amortisable assets

Management reviews the useful lives of depreciable and amortisable assets at each reporting date, based on the expected utility of the assets to the Company.

c. Leases

Ind AS 116 requires lessees to determine the lease term as the non-cancellable period of a lease adjusted with

any option to extend or terminate the lease, if the use of such option is reasonably certain. The Company makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the importance of the underlying asset to Company's operations taking into account the location of the underlying asset and the availability of suitable alternatives.

5. Standards and recent pronouncements issued but not yet effective

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 31, 2023, MCA amended the Companies (Indian Accounting Standards) Rules, 2015 by issuing the Companies (Indian Accounting Standards) Amendment Rules, 2023, applicable from April 1, 2023, as below:

Ind AS 1 – Presentation of Financial Statements

The amendments require companies to disclose their material accounting policies rather than their significant accounting policies. Accounting policy information, together with other information, is material when it can reasonably be expected to influence decisions of primary users of general purpose financial statements.

Ind AS 12 – Income Taxes

The amendments clarify how companies account for deferred tax on transactions such as leases and decommissioning obligations. The amendments narrowed the scope of the recognition exemption in paragraphs 15 and 24 of Ind AS 12 (recognition exemption) so that it no longer applies to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences.

Ind AS 8 – Accounting Policies, Changes in Accounting Estimates and Errors

The amendments will help entities to distinguish between accounting policies and accounting estimates. The definition of a change in accounting estimates has been replaced with a definition of accounting estimates. Under the new definition, accounting estimates are "monetary amounts in financial statements that are subject to measurement uncertainty". Entities develop accounting estimates if accounting policies require items in financial statements to be measured in a way that involves measurement uncertainty.

The Company is in the process of evaluating the impact of these amendments on the financial statements.

Nature and purpose of reserves

Securities premium

The amount received in excess of face value of the equity shares, net off issue expenses, is recognised in the securities premium. This reserve will be utilised in accordance with the provisions of Section 52 of the Companies Act, 2013 ("the Act").

Capital reserve

The excess of net assets taken, over the consideration paid, as part of the business combinations have been recorded under the capital reserve during the earlier years.

Summary of the significant accounting policies and other explanatory information

(All amounts in ₹ millions, except share data and where otherwise stated)

Capital redemption reserve

Capital redemption reserve was created on buy back of equity shares in the earlier years. The Company uses capital redemption reserve in accordance with the provisions of the Act.

Warrants money appropriated

Warrants money appropriated represents forfeiture of share application money made during the earlier years.

General reserve

The reserve has arisen on transfer of a portion of the net profit pursuant to the provisions of the erstwhile Companies Act, 1956. Mandatory transfer to general reserve is not required under the Act.

Changes in fair value of equity instruments

This represents the cumulative gains and losses arising on the fair valuation of equity instruments measured at FVTOCI, under an irrevocable option, net of amounts reclassified to retained earnings when such assets are disposed off.

Retained earnings

Retained earnings are the profits that the Company has earned till date, less any transfers to general reserve, dividends or other distribution to the shareholders.

	31 March 2023	31 March 2022
Financial assets		
Fair value hierarchy (Level 1)		
Quoted equity shares	0.30	0.20
Fair value hierarchy (Level 3)		
Unquoted equity shares	2.60	2.60

There are no transfers between levels during the current and previous year ended 31 March 2023 and 31 March 2022 respectively. The Company's policy is to recognise transfers into and transfers out of fair value hierarchy levels at the end of the reporting period.

- (ii) **Valuation technique and inputs used for level 3 instruments:**

The fair value of the level 3 instruments has been estimated using the discounted cash flow model. The valuation requires management to make certain assumptions about the model inputs, including forecasting of cash flows, discount rate, credit risk and volatility. The probabilities of the various estimates within the range can be reasonably assessed and are used in the management's estimate of the fair value for these level 3 instruments.

The significant unobservable inputs used in the fair value measurement categorised within Level 3 of the fair value hierarchy as at 31 March 2023 and 31 March 2022 are as shown below.

39. Financial risk management objectives and policies

Financial Risk Management Framework

The Company's Board of Directors has an overall responsibility for the establishment and oversight of the Company's risk management framework. The Board of Directors has established Risk Management Committee, which is responsible for developing and monitoring the Company's risk management policies. The Committee reports regularly to the Board of Directors on its activities.

The Company's principal financial liabilities, comprises of borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include trade and other receivables, and cash and cash equivalents that the Company derives directly from its operations.

The Company is exposed primarily to Credit risk, Liquidity risk and Market risk (fluctuations in interest rates, foreign currency rates, and prices of equity instruments), which may adversely impact the fair value of its financial instruments. The Company assesses the unpredictability of the financial environment and seeks to mitigate potential adverse effects on the financial performance of the Company.

Summary of the significant accounting policies and other explanatory information

(All amounts in ₹ millions, except share data and where otherwise stated)

A. Credit risk

Credit risk is the risk that the counterparty shall not meet its obligations under a financial instrument or customer contract, leading to a financial loss. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of the creditworthiness as well as concentration of risks. Credit risk arises primarily from financial assets such as trade receivables, investment in equity shares, balances with banks, loans and other receivables.

Credit risk is controlled by analyzing credit limits and creditworthiness of the customers on a continuous basis to whom credits have been granted after obtaining necessary approvals. Financial instruments that are subject to concentration of credit risk principally consist of trade receivables, investments, cash and cash equivalents, bank deposits and other financial assets. None of the financial instruments of the Company result in material concentration of credit risk.

Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk was ₹628.66 and ₹639.50 as of 31 March 2023 and 31 March 2022 respectively, representing carrying amount of all financial assets with the Company.

Financial assets that are neither past due nor impaired

None of the Company's cash equivalents, including fixed deposits, were either past due or impaired as at 31 March 2023 and 31 March 2022. The Company has diversified its portfolio of investment in cash and cash equivalents and term deposits with various banks which have secure credit ratings hence the risk is reduced. Concentration of exposures are actively monitored by the finance department of the Company.

Financial assets that are past due but not impaired

The Company's credit period for customers generally ranges from 0 - 30 days. The aging of trade receivables, net of those provided for in the books of account, is given below:

Number of days	As at	
	31-Mar-23	31-Mar-22
0-30 days	201.98	163.20
31-60 days	59.58	16.56
61-90 days	9.89	-
Greater than 90 days	7.64	-
	279.09	179.76

Ind AS requires expected credit losses to be measured through a loss allowance. The Company assesses at each date of Balance Sheet whether a financial asset or a group of financial assets are impaired. Expected credit losses are measured at an amount equal to 12 months expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial assets have increased significantly since the initial recognition. The Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and is adjusted for forward-looking information. Based on such data, loss on collection of receivable is not material, hence no additional provision considered.

B. Liquidity risk

Liquidity risk refers to the risk that the Company cannot meet its financial obligations as and when they become due. The objective of liquidity risk management is to maintain sufficient liquidity and to ensure that funds are available for meeting due obligations of the Company. The Company manages liquidity risk by maintaining adequate reserves, banking facilities, continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of the financial assets and financial liabilities.

Represents loan amount outstanding to the bankers by the entities, against which financial guarantees were extended by the Company as at 31 March 2023 and 31 March 2022.

C. Market risk

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from adverse changes in the market rates and prices. Market risk is attributable to all market risk-sensitive financial instruments, all foreign currency receivables and payables and all short-term and long-term borrowings. Market risk comprises three types of risk: interest rate risk, currency risk and other price risks such as equity price risk.

i. Interest risk:

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument shall fluctuate because of changes in the market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's short-term obligations with floating interest rates. The impact on account of change in interest rate on the Company's long-term obligations is not considered as significant.

ii. Foreign currency risk:

Foreign currency risk is the risk that the fair value or future cash flows of an exposure shall fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating and investing activities (when revenue or expense including capital expenditure is denominated in a foreign currency). The exposure of foreign currency risk to the entity is low as it enters very limited transactions in foreign currencies and accordingly any impact on account of change in the exchange rate is not considered as significant.

The carrying amounts of the Company's unhedged foreign currency denominated monetary items in ₹ terms as at 31 March 2023 and 31 March 2022 are as follows:

Financial assets - Trade receivables

	31 March 2023	31 March 2022
- USD	-	-
Financial liabilities- capital creditors		
	31 March 2023	31 March 2022
- EURO	-	2.65

Summary of the significant accounting policies and other explanatory information

(All amounts in ₹ millions, except share data and where otherwise stated)

iii. Equity price risk:

The Company's listed and non-listed equity securities are susceptible to market price risk arising from uncertainties about future values of the investment securities. The Company manages the equity price risk through diversification and by placing limits on individual and total equity instruments. Reports on the equity portfolio are submitted to the Company's senior management on a regular basis. The Company's Board of Directors reviews and approves all equity investment decisions.

At the reporting date, the exposure to unlisted equity securities at fair value was ₹2.60 (31 March 2022: ₹2.60). The impact on account of change in the assumptions are not considered as significant.

40. Capital risk management

For the purpose of the Company's capital management, capital includes issued equity capital, share premium and all other reserves attributable to the equity holders. The primary objective of the Company's capital management is to maximise the shareholder value.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Company may adjust the dividend payments to shareholders, return capital to shareholders or issue new shares. The Company monitors capital using a gearing ratio, which is net debt divided by total equity plus net debt. The Company's policy is to keep the gearing ratio up to 35%. The Company includes within net debt, borrowings from banks less cash and cash equivalents. Borrowings from banks comprise of term loans and loans repayable on demand.

	31 March 2023	31 March 2022
Borrowings from banks	1,243.58	-
Less: Cash and cash equivalents	(163.20)	(324.76)
Net debt (A)	1,080.38	(324.76)
Total equity (B)	7,366.98	6,604.86
Net debt and total equity (A) + (B)	8,447.36	6,604.86
Gearing ratio (%)	12.79%	0.00%

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the borrowings. Breaches in meeting the financial covenants would permit the lenders to immediately call back the borrowings. There was no breach in the financial covenants of any borrowings during the year ended 31 March 2023 and 31 March 2022.

No changes were made in the objectives, policies or processes for managing capital during the years ended 31 March 2023 and 31 March 2022.

Independent Auditor's Report

To
the Members of Heritage Foods Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

1. We have audited the accompanying consolidated financial statements of Heritage Foods Limited ('the Holding Company') and its subsidiaries (the Holding Company and its subsidiaries together referred to as 'the Group'), its associate and joint venture, as listed in **Annexure 1**, which comprise the Consolidated Balance Sheet as at 31 March 2023, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Cash Flow Statement and the Consolidated Statement of Changes in Equity for the year then ended, and notes to the consolidated financial statements, including a summary of the significant accounting policies and other explanatory information.
2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards ('Ind AS') specified under section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, and other accounting principles generally accepted in India of the consolidated state of affairs of the Group, its associate and joint venture, as at 31 March 2023, and their consolidated profit (including
5. We have determined the matter described below to be the key audit matters to be communicated in our report.

other comprehensive income), consolidated cash flows and the consolidated changes in equity for the year ended on that date.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group, its associate and joint venture in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matter

4. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How our audit addressed the key audit matter
Revenue recognition	Our audit included, but was not limited to, the following procedures:
Revenue from sale of goods is recognised when control of the products being sold is transferred to the customer and when there are no longer any unfulfilled obligations. The performance obligations in the contracts are fulfilled at the time of dispatch, delivery or upon formal customer acceptance depending on terms.	<ul style="list-style-type: none"> Assessed the appropriateness of the revenue recognition accounting policies, including those relating to discounts in accordance with Ind AS 115 – Revenue from contracts with customers ('Ind AS 115').
The Holding Company's sales arrangements are on a point-of-sale basis and requires little judgement to be exercised.	<ul style="list-style-type: none"> Evaluated the integrity of the general information and technology control environment and tested the operating effectiveness of key IT application controls.
Discounts offered by Holding Company are material and there are arrangements with varying terms based on schemes implemented throughout the year.	<ul style="list-style-type: none"> Evaluated the design and implementation of Holding Company's controls in respect of revenue recognition, including discounts. Performed substantive testing by selecting samples of revenue transactions recorded during the year by verifying the underlying documents, which included trip sheets, invoices, shipping documents and evidence of collection of receipts, as appropriate.

Key audit matter	How our audit addressed the key audit matter
<p>There is a risk of revenue being overstated, resulting from pressure the management may feel to achieve performance targets at the reporting period end.</p> <p>Due to the materiality of amounts involved and above said considerations, revenue recognition from sale of goods is determined to be a key audit matter for the current year audit.</p> <p>Refer Note 3(e) to the Consolidated Financial Statements – Summary of the significant accounting policies and Note 24 for the revenue recognized during the year.</p>	<ul style="list-style-type: none"> Performed substantive testing by selecting samples of discount transactions recorded during the year and comparing the parameters used in the calculation of the discounts with the relevant source documents (including schemes approvals and credit notes) to assess whether the methodology adopted in the calculation of the discounts was in accordance with the terms and conditions defined in the schemes. Assessed manual journal entries posted to revenue to identify unusual items and tested such entries on a sample basis. <p>Evaluated appropriateness of disclosures made in the consolidated financial statements in accordance with the requirements of Ind AS 115 and other applicable regulations.</p>

Information other than the Consolidated Financial Statements and Auditor's Report thereon

- The Holding Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

- The accompanying consolidated financial statements have been approved by the Holding Company's Board of Directors. The Holding Company's Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group including its associate and joint venture in accordance with the Ind AS specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, and other accounting principles generally accepted in India. The Holding

Company's Board of Directors are also responsible for ensuring accuracy of records including financial information considered necessary for the preparation of consolidated Ind AS financial statements. Further, in terms of the provisions of the Act the respective Board of Directors of the companies included in the Group, and its associate company and joint venture company covered under the Act are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error. These financial statements have been used for the purpose of preparation of the consolidated financial statements by the Board of Directors of the Holding Company, as aforesaid.

- In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group and of its associate and joint venture are responsible for assessing the ability of the Group and of its associate and joint venture to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.
- Those respective Board of Directors are also responsible for overseeing the financial reporting process of the companies included in the Group and of its associate and joint venture.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

- Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud

or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

11. As part of an audit in accordance with Standards on Auditing specified under section 143(10) of the Act we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Act we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls;
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
- Conclude on the appropriateness of Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associate and joint venture to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associate and joint venture to cease to continue as a going concern;
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the

underlying transactions and events in a manner that achieves fair presentation; and

- Obtain sufficient appropriate audit evidence regarding the financial information/ financial statements of the entities or business activities within the Group, and its associate and joint venture, to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of financial statements of such entities included in the financial statements, of which we are the independent auditors.

12. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

13. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

14. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

15. The consolidated financial statements include the Group's share of net loss (including other comprehensive loss) of ₹0.01 million for the year ended 31 March 2023, as considered in the consolidated financial statements, in respect of one associate, whose financial information has not been audited by us. This financial information is unaudited and have been furnished to us by the management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of the aforesaid associate, is based solely on such unaudited financial information. In our opinion and according to the information and explanations given to us by the management, this financial information is not material to the Group.

Our opinion above on the consolidated financial statements, and our report on other legal and regulatory requirements below, are not modified in respect of the above matter with respect to our reliance on the financial information certified by the management.

Report on Other Legal and Regulatory Requirements

16. As required by section 197(16) of the Act, based on our audit, we report that the Holding Company, has paid remuneration to their directors during the year in accordance with the provisions of and limits laid down under section 197 read with Schedule V to the Act. Further, we report that a subsidiary company incorporated in India whose financial statements have been audited under the Act have not paid or provided for any managerial remuneration during the year. Accordingly, reporting under section 197(16) of the Act is not applicable in respect of such subsidiary company. Further, we report that the provisions of section 197 read with Schedule V to the Act is not applicable to the joint venture company covered under the Act, since it is not a public company as defined under section 2(71) of the Act.
17. 18. As required by section 143(3) of the Act, based on our audit, we report, to the extent applicable, that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the aforesaid consolidated financial statements;
 - b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books;
 - c) The consolidated financial statements dealt with by this report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements;
 - d) in our opinion, the aforesaid consolidated financial statements comply with Ind AS specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015;
 - e) On the basis of the written representations received from the directors of the Holding Company, its subsidiary company and joint venture and taken on record by the Board of Directors of the Holding Company, its subsidiary company and joint venture, respectively, covered under the Act, none of the directors of the Group companies and joint venture company, are disqualified as on 31 March 2023 from being appointed as a director in terms of section 164(2) of the Act.
- f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Holding Company, its subsidiary company and its associate company covered under the Act, and the operating effectiveness of such controls, refer to our separate report in '**Annexure A**' wherein we have expressed an unmodified opinion; and
- g) With respect to the other matters to be included in the Auditor's Report in accordance with rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:
 - i. The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group, associate and joint venture as detailed in Note 43(b) to the consolidated financial statements;
 - ii. The Holding Company, its subsidiary company and joint venture company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses as at 31 March 2023;
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Holding Company during the year ended 31 March 2023. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the subsidiary company and joint venture company covered under the Act, during the year ended 31 March 2023.
 - iv. a. The respective managements of the Holding Company and its subsidiary company and joint venture incorporated in India whose financial statements have been audited under the Act have represented to us, to the best of their knowledge and belief, as disclosed in note 35(i) to the consolidated financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or securities premium or any other sources or kind of funds) by the Holding Company or its subsidiary companies, its associate company or its joint venture company to or in any person(s) or entity (ies), including foreign entities ('the intermediaries'), with the understanding, whether recorded in writing or otherwise, that the intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Holding Company, or any such subsidiary companies, its associate company or its joint venture company ('the Ultimate Beneficiaries')

- or provide any guarantee, security or the like on behalf the Ultimate Beneficiaries;
- b. The respective managements of the Holding Company and its subsidiary company and joint venture incorporated in India whose financial statements have been audited under the Act have represented to us, to the best of their knowledge and belief, as disclosed in the note 35(ii) to the accompanying consolidated financial statements, no funds have been received by the Holding Company or its subsidiary companies, or its associate or its joint venture from any person(s) or entity(ies), including foreign entities ('the Funding Parties'), with the understanding, whether recorded in writing or otherwise, that the Holding Company, or any such subsidiary companies, its associate or its joint venture shall, whether directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ('Ultimate Beneficiaries') or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
 - c. Based on such audit procedures performed by us, as considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the management representations under sub-clauses (a) and (b) above contain any material misstatement.
 - v. The subsidiary company and joint venture have not declared or paid any dividend during the year ended 31 March 2023. As stated in note 34 to the accompanying consolidated financial statements, the final dividend paid by the Holding Company during the year ended 31 March 2023 in respect of such dividend declared for the previous year is in accordance with section 123 of the Act to the extent it applies to payment of dividend. The Board of Directors of the Holding Company have proposed final dividend for the year ended 31 March 2023 which is subject to the approval of the members at the ensuing Annual General Meeting. The dividend declared is in accordance with section 123 of the Act to the extent it applies to declaration of dividend.
 - vi. Proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 requires all companies which use accounting software for maintaining their books of account, to use such an accounting software which has a feature of audit trail, with effect from the financial year beginning on 1 April 2023 and accordingly, reporting under Rule 11(g) of Companies (Audit and Auditors) Rules, 2014 (as amended) is not applicable for the current financial year.

Annexure A to the Independent Auditor's Report of even date to the members of Heritage Foods Limited on the consolidated financial statements for the year ended 31 March 2023

Independent Auditor's Report on the internal financial controls with reference to financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

1. In conjunction with our audit of the consolidated financial statements of Heritage Foods Limited ('the Holding Company') and its subsidiaries (the Holding Company and its subsidiaries together referred to as 'the Group') and its associate as at and for the year ended 31 March 2023, we have audited the internal financial controls with reference to financial statements of the Holding Company and its subsidiary company, which are companies covered under the Act, as at that date.

Responsibilities of Management and Those Charged with Governance for Internal Financial Controls

2. The respective Board of Directors of the Holding Company and its subsidiary company, which are companies covered under the Act, are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note ("Guidance Note") on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility for the Audit of the Internal Financial Controls with Reference to Financial Statements

3. Our responsibility is to express an opinion on the internal financial controls with reference to financial statements of the Holding Company and its subsidiary company, as aforesaid, based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the

ICAI prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements, and the Guidance Note issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements includes obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to financial statements of the Holding Company and its subsidiary company as aforesaid.

Meaning of Internal Financial Controls with Reference to Financial Statements

6. A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the

company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Financial Statements

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Holding Company and its subsidiary company, which are companies covered under the Act, have in all material respects, adequate internal financial controls with reference to financial statements and such controls were operating effectively as at 31 March 2023, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Other Matter

9. We did not audit the internal financial controls with reference to financial statements insofar as it relates to one associate company, which is a company covered under the Act, in respect of which, the Group's share of net loss (including other comprehensive loss) of ₹0.01 million for the year ended 31 March 2023 has been considered in the consolidated financial statements. The internal financial controls with reference to financial statements of this associate company, which are is a company covered under the Act, are unaudited and our opinion under Section 143(3)(i) of the Act on adequacy and operating effectiveness of the internal financial controls with reference to financial statements insofar as it relates to the aforesaid associate, which are is a company covered under the Act, is solely based on the corresponding internal financial controls with reference to financial statements report certified by the management of such company. In our opinion and according to the information and explanations given to us by the management, this financial statements is not material to the Group. Our opinion is not modified in respect of the above matter with respect to our reliance on the internal financial controls with reference to financial statements report certified by the management.

Summary of the significant accounting policies and other explanatory information

1. Corporate information

Heritage Foods Limited ("the Company" or "Parent Company" or "Holding Company") together with its subsidiaries, a joint venture and an associate (collectively referred as "the Group"), is a leading India based Dairy Company, headquartered, and having its registered office at #H.No. 8-2-293/82/A/1286, Plot No: 1286, Road No. 1 & 65, Jubilee Hills, Hyderabad – 500033, Telangana, India. The Group operates through its three business divisions (a) Dairy, (b) Renewable Energy and (c) Animal Feed Products. The Parent Company's shares are listed and traded on the Indian Stock Exchanges viz., BSE Limited and the National Stock Exchange of India.

2. Basis of preparation of the consolidated financial statements

The consolidated financial statements of the Company have been prepared in accordance with accounting principles generally accepted in India, Indian Accounting Standards (Ind AS) notified under section 133 of the Companies Act, 2013, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended from time to time and presentation requirement of Division II of Schedule III to the Act, including the amendments to Schedule III notified by the Ministry of Corporate Affairs ("MCA") vide its notification dated 24 March 2021 and guidelines issued by the Securities Exchange Board of India ("SEBI").

These consolidated financial statements have been prepared by the Company as a going concern on the basis of relevant Ind-AS that are effective or elected for early adoption at the Parent Company's annual reporting date, 31 March 2023. These consolidated financial statements were authorised for issuance by the Company's Board of Directors on 25 May 2023.

These consolidated financial statements have been prepared on historical cost convention, except for the following material items:

- (a) Derivative financial instruments are measured at fair value.
- (b) Financial assets are measured at either at fair value or at amortised cost depending upon the classification.
- (c) Employee defined benefits assets / (liability) are recognised as the net total of the fair value of plan assets, plus actuarial losses, less actuarial gains and the present value of the defined benefit obligations.
- (d) Long-term borrowings are measured at amortised cost using the effective interest rate method; and

- (e) Right-of-use assets are recognised at present value of lease payments, that are not paid at that date, adjusted for any lease payments made at or before the commencement date, lease incentives received and initial direct cost incurred, if any.

The Group has uniformly applied the accounting policies during the periods presented. The consolidated financial statements are presented in Indian Rupees (₹) and all values are rounded to the nearest millions, except when otherwise indicated.

3. Summary of significant accounting policies

a. Basis of consolidation

Subsidiaries

Subsidiaries are all entities (including special purpose entities) that are controlled by the Parent Company. Control exists when the Parent Company is exposed to or has rights to variable returns from its involvement with the entity and has the ability to affect those returns through power over the entity. In assessing control, potential voting rights are considered only if the rights are substantive. The financial statements of subsidiaries are included in these consolidated financial statements from the date that control commences until the date that control ceases. Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated statement of profit and loss, consolidated statement of changes in equity and consolidated balance sheet, respectively. For the purpose of preparing these consolidated financial statements, the accounting policies of subsidiaries have been changed where necessary to align them with the policies adopted by the Parent Company.

Consolidation procedure:

- (a) Combine like items of assets, liabilities, equity, income, expenses and cash flows of the Parent Company with those of its subsidiaries.
- (b) Offset (eliminate) the carrying amount of the Parent Company's investment in each subsidiary and the Parent Company's portion of equity of each subsidiary.
- (c) Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the Group (profits or losses resulting from intragroup transactions that are recognised in assets, such as inventory and Property, plant and equipment are eliminated in

full). Intragroup losses may indicate an impairment that requires recognition in the consolidated financial statements. Ind AS12 Income Taxes applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the Parent Company and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance.

Joint arrangements (equity accounted investees)

Joint arrangements are those arrangements over which the Company has joint control, established by contractual agreement and requiring unanimous consent for strategic financial and operating decisions. A joint arrangement is either a joint operation or a joint venture.

A joint operation is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the assets, and obligations for the liabilities, relating to the arrangement. A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the arrangement.

With respect to joint operations, the Company recognises its direct right to the assets, liabilities, revenues and expenses of joint operations and its share of any jointly held or incurred assets, liabilities, revenues and expenses.

Investments in joint ventures are accounted for using the equity method and are initially recognised at cost. The carrying value of the Company's investment includes goodwill identified on acquisition, net of any accumulated impairment losses. The Company does not consolidate entities where the non-controlling interest ("NCI") holders have certain significant participating rights that provide for effective involvement in significant decisions in the ordinary course of business of such entities. Investments in such entities are accounted by the equity method of accounting. When the Company's share of losses exceeds its interest in an equity accounted investee, the carrying amount of that interest (including any long-term investments) is reduced to zero and the recognition of further losses is discontinued except to the extent that the Company has an obligation or has made payments on behalf of the investee.

For the purpose of preparing these consolidated financial statements, the accounting policies of joint venture has been changed where necessary to align them with the policies adopted by the Parent Company. Furthermore, the financial statements of the joint ventures are prepared for the same reporting period as of the Parent Company.

Unrealised gains or losses arising from transactions with equity accounted investees are eliminated against the investment to the extent of the Parent Company's interest in the investee.

Associate

An associate is an entity over which the Parent Company has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies. Investment in an associate is accounted for using the equity method and the investment is initially recognised at cost.

Changes in ownership interests

Acquisition of some or all of the NCI is accounted for as a transaction with equity holders in their capacity as equity holders. Consequently, the difference arising between the fair value of the purchase consideration paid and the carrying value of the NCI is recorded as an adjustment to retained earnings that is attributable to the Parent company. The associated cash flows are classified as financing activities. No goodwill is recognised as a result of such transactions.

Loss of Control

Upon loss of control, the Parent Company derecognises the assets and liabilities of the subsidiary, any NCIs and the other components of equity related to the subsidiary. Any surplus or deficit arising on the loss of control is recognised in the consolidated statement of profit and loss. If the Company retains any interest in the previous subsidiary, then such interest is measured at fair value at the date that control is lost. Subsequently, depending on the level of influence retained, it is accounted for as an equity-accounted investee or as an investment measured at fair value through other comprehensive income ("FVTOCI") or fair value through profit or loss ("FVTPL") under Ind AS 109, "Financial Instruments".

List of entities included in the consolidated financial statements is as under:

Name of the entity	Relationship	Country of incorporation	Proportion of ownership interest as at	
			31 March 2023	31 March 2022
Heritage Nutrivet Limited ("HNL")	Subsidiary	India	100%	100%
Heritage Novandie Foods Private Limited	Joint venture	India	50%	50%
SKIL Raigam Power (India) Limited*	Associate	India	43.33%	43.33%
Heritage Farmers Welfare Trust	Subsidiary	India	#	#
Heritage Employees Welfare Trust**	Subsidiary	India	#	#

*Declared as Dormant Company as per Section 455(2) of Companies Act, 2013 vide SRN No T42936765 dated 22 September 2021.

**The Board of Directors of the Company passed a resolution on 24 March 2017 to discontinue all the activities of the trust with effect from 1 April 2017, except for loan recoveries from employees.

#Considered as subsidiaries by virtue of control being exercised by the Parent Company.

b. Current versus non-current classification

The Group presents assets and liabilities in the consolidated balance sheet based on current/ non-current classification.

An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Group has identified twelve months as its operating cycle.

c. Foreign currencies

The functional currency of the Parent Company and its subsidiaries is Indian rupee (₹). These consolidated financial statements are presented in Indian rupees, which is Parent Company's functional currency.

Transactions in foreign currency are initially recorded at exchange rates prevailing on the date of transactions. Monetary items denominated in foreign currencies (such as cash, receivables, payables etc.) outstanding at the end of reporting period, are translated at the functional currency spot rate of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognised in the consolidated statement of profit and loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

Any gains or losses arising due to differences in exchange rates at the time of translation or settlement are accounted for in the consolidated statement of profit and loss either under the head foreign exchange fluctuation or interest cost, as the case may be, except those relating to long-term foreign currency monetary items.

d. Fair value measurement

The Group measures financial instruments at fair value at each consolidated balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Group's management determines the policies and procedures for both recurring fair value measurement, such as derivative instruments and unquoted financial assets measured at fair value, and for non-recurring measurement, such as assets held for distribution in discontinued operations.

External valuers are involved for valuation of significant assets, such as unquoted financial assets, and significant liabilities, such as contingent consideration. Involvement of external valuers is decided upon annually by the management. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained.

At each reporting date, the management analyses the movements in the values of assets and liabilities which are required to be re-measured or re-assessed as per the Group's accounting policies. For this analysis, the management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

e. Revenue recognition

The Group derives revenues primarily from sale of milk, dairy products and feed products. It is also engaged in generation of power and trading of dairy and food commodities.

Revenue is recognized on satisfaction of performance obligation upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Group expects to receive in exchange for those products or services.

Revenue is measured on the basis of transaction price, after deduction of any discounts and any taxes or duties collected on behalf of the Government such as goods and services tax, etc. Discounts are recognised in accordance with the schemes implemented by the Group. Revenue is only

recognised to the extent that it is highly probable a significant reversal will not occur.

The Group does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, it does not adjust any of the transaction prices for the time value of money.

The Group satisfies a performance obligation and recognises revenue over time, if one of the following criteria is met:

- The customer simultaneously receives and consumes the benefits provided by the Company's performance as the Company performs; or
- The Company's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or
- The Company's performance does not create an asset with an alternative use to the Company and an entity has an enforceable right to payment for performance completed to date.

For performance obligations where one of the above conditions are not met, revenue is recognised at the point in time at which the performance obligation is satisfied.

Revenue from sale of products and services is recognised at the time when performance obligation is satisfied.

Interest Income

For all debt instruments measured either at amortised cost or at fair value through other comprehensive income, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability. When calculating the effective interest rate, the Group estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses. Interest income is included under other income in the consolidated statement of profit and loss.

f. Government grants

Government grants are recognised where there is reasonable assurance that the grant will be received

and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is initially recognised as deferred income at fair value and subsequently are recognised in statement of profit and loss as other income on a systematic basis over the expected useful life of the related asset.

On receipt of grants of non-monetary assets, the asset and the grant are recorded at fair value amounts and released to the consolidated statement of profit and loss over the expected useful life in a pattern of consumption of the benefit of the underlying asset i.e. by equal annual instalments. When loans or similar assistance are provided by governments or related institutions, with an interest rate below the current applicable market rate, the effect of this favourable interest is regarded as a government grant. The loan or assistance is initially recognised and measured at fair value and the government grant is measured as the difference between the initial carrying value of the loan and the proceeds received. The loan is subsequently measured as per the accounting policy applicable to financial liabilities.

g. Taxes

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax is recognised in the consolidated statement of profit and loss except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is provided using the Balance Sheet approach on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except when the deferred tax liability arises from the initial recognition of

goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss. Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except when the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future. In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax is recognised in the consolidated statement of profit and loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the deferred tax is also recognised in other comprehensive income or directly in equity, respectively.

Deferred tax assets and deferred tax liabilities are

offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

h. Assets included in disposal groups classified as held for sale and discontinued operations

The Group classifies assets included in disposal groups as "Held for sale" if their carrying amounts will be recovered principally through a sale rather than through continuing use. Actions required to complete the sale should indicate that it is unlikely that significant changes to the sale will be made or that the decision to sell will be withdrawn. Management must be committed to the sale expected within one year from the date of classification.

For these purposes, sale transactions include exchanges of non-current assets for other non-current assets when the exchange has commercial substance. The criteria for held for sale classification is regarded met only when the assets or disposal group is available for immediate sale in its present condition, subject only to terms that are usual and customary for sales of such assets (or disposal groups), its sale is highly probable; and it will genuinely be sold, not abandoned. The Group treats sale of the asset or disposal group to be highly probable when:

- The appropriate level of management is committed to a plan to sell the asset (or disposal group),
- An active programme to locate a buyer and complete the plan has been initiated (if applicable),
- The asset (or disposal group) is being actively marketed for sale at a price that is reasonable in relation to its current fair value,
- The sale is expected to qualify for recognition as a completed sale within one year from the date of classification, and
- Actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

Assets included in disposal groups classified as held for sale and disposal groups are measured at the lower of their carrying amount and the fair value less costs to sell. Assets and liabilities classified as held for sale are presented separately in the consolidated balance sheet.

Property, plant and equipment and intangible assets

once classified as held for sale are not depreciated or amortised.

A disposal group qualifies as discontinued operation if it is a component of an entity that either has been disposed of, or is classified as held for sale, and:

- Represents a separate major line of business or geographical area of operations,
- Is part of a single co-ordinated plan to dispose of a separate major line of business or geographical area of operations or
- Is a subsidiary acquired exclusively with a view to resale.

Discontinued operations are excluded from the results of continuing operations and are presented as a single amount as profit or loss after tax from discontinued operations in the consolidated statement of profit and loss.

Additional disclosures are provided in Note 47. All notes to the consolidated financial statements mainly include amounts for continuing operations, unless otherwise mentioned.

i. **Property, plant and equipment and Capital work-in-progress**

Freehold land is carried at historical cost. Property, plant and equipment are stated at cost net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price, the cost of replacing the part of plant and equipment and borrowing costs if capitalization criteria are met and any attributable cost of bringing the asset to its working condition and location for the intended use. Capital work in progress includes cost of property, plant and equipment under installation/under development as at the balance sheet date net of accumulated impairment loss, if any. Property, plant and equipment under installation or under construction as at balance sheet are shown as capital work-in-progress and the related advances are shown as capital advances.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced.

When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific

useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in the consolidated statement of profit and loss as incurred. The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met.

Spare parts are capitalized when they meet the definition of PPE, i.e., when the Group intends to use these during more than a period of 12 months.

Depreciation is provided on the basis of straight-line method at the useful life and in the manner prescribed in Schedule II of the Companies Act, 2013 except in respect of the following assets, based on technical assessment made by technical expert and /or internal evaluation. Management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

The useful life provided for different asset classes under schedule II of the Act and considered by the management are as follows:

Asset class	Useful life considered by management (in years)	Useful life prescribed under the Act (in years)
Buildings (including investment property)	5 – 30	30
Plant and machinery	1 – 20	15
Furniture and Fixtures	1 – 15	10
Vehicles	2 – 10	8
Office Equipment	1 – 20	5

- Depreciation on Improvements to leasehold property is provided over the period of lease.
- Depreciation in respect of its Renewable Energy business is provided on straight line method and at rates/ methodology prescribed under the relevant Central Electricity Regulatory Commission (CERC) regulations.

Depreciation on assets which are commissioned during the year is charged on pro -rata basis from the date of commissioning. The company depreciates general spares over the life of the spare from the date it is available for use.

An item of property, plant and equipment and any significant part initially recognised is

derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Gains or losses arising from de-recognition of a tangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the consolidated statement of profit and loss when the asset is derecognised.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

j. Investment property

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

The cost includes the cost of replacing parts and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of the investment property are required to be replaced at intervals, the Group depreciates them separately based on their specific useful lives. All other repair and maintenance costs are recognised in the consolidated statement of profit and loss as incurred.

The Group depreciates building component of investment property over the useful life prescribed in Schedule II to the Companies Act, 2013.

Though the Group measures investment property using cost based measurement, the fair value of investment property is disclosed in the note 8 to the consolidated financial statements.

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in the consolidated statement of profit and loss in the period of de-recognition.

k. Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. Internally generated intangibles, excluding capitalised development costs, are not

capitalised and the related expenditure is reflected in the consolidated statement of profit and loss in the period in which the expenditure is incurred.

The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite lives are amortised on straight line basis over the estimated useful economic life. The amortisation expense on intangible assets with finite life is recognised in the consolidated statement of profit and loss under the head Depreciation and amortization expense. The estimated useful life of intangible assets is mentioned below:

Asset	Useful life (years)
Brand	5
Non-compete	3
Procurement	5
Computer Software	5
Distribution network	5

Intangible assets with finite lives are assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the consolidated statement of profit and loss unless such expenditure forms part of carrying value of another asset.

Intangible assets with indefinite useful lives are not amortised, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

An intangible asset is derecognised upon disposal (i.e., at the date the recipient obtains control) or when no future economic benefits are expected from its use or disposal.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the consolidated statement of profit and loss when the asset is derecognised.

I. Borrowing cost

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

m. Leases

The Group as a lessee

The Group's lease asset classes primarily consist of leases for land and buildings. The Group assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether: (i) the contract involves the use of an identified asset (ii) the Group has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Group has the right to direct the use of the asset.

At the date of commencement of the lease, the Group recognizes a right-of-use (ROU) asset and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of 12 months or less (short-term leases) and low value leases. For these short-term and low-value leases, the Group recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised. The ROU assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses. ROU assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. ROU assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable

amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The Group measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Group uses incremental borrowing rate. For leases with reasonably similar characteristics, the Group, on a lease by lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Group is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments. The Group recognises the amount of the re-measurement of lease liability due to modification as an adjustment to the Right-of-use asset and Consolidated Statement of Profit and Loss depending upon the nature of modification. Where the carrying amount of the Right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Group recognises any remaining amount of the re-measurement in the Consolidated Statement of Profit and Loss.

The Group as a lessor

Leases for which the Group is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases. For operating leases, rental income is recognized on a straight-line basis over the term of the relevant lease.

Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income.

n. Inventories

All inventories except stores, spares, consumables, semi-finished goods and packaging material, are valued at lower of cost and net realisable value. Stores, spares and consumables, semi-finished goods and packing material held for use in the production of finished products are not written down below cost except in cases where material prices have declined and it is estimated that the cost of the finished products will exceed their net realisable value. Costs for all categories of inventories have been ascertained using weighted average cost method.

Cost of inventories comprises of the following:

- Raw material, stock-in-trade, semi-finished goods, packaging materials and stores, spares and consumables: Cost includes purchase price, import duties and other taxes excluding taxes those are subsequently recoverable from the concerned authorities, freight inwards and other expenditure incurred in bringing such inventories to their present location and condition.
- Finished goods and work in progress: Cost comprises cost of direct material, direct labour and appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity, but excluding borrowing costs.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

o. Impairment of non-financial assets

The Group assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is

considered impaired and is written down to its recoverable amount.

Impairment losses of continuing operations, including impairment on inventories, are recognised in the consolidated statement of profit and loss.

For assets excluding goodwill, an assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Group estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years.

p. Provision and contingencies

Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

When the Group expects some or all of a provision to be reimbursed, reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the consolidated statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingencies

Contingent liabilities is identified and disclosed with respect to following:

- a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity; or

- a present obligation that arises from past events but is not recognised because:
 - it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or
 - the amount of the obligation cannot be measured with sufficient reliability.

Contingent assets are neither recognized nor disclosed, unless inflow of economic benefits is probable. However, when realization of income is virtually certain, related asset is recognized.

q. Employee benefits

Short term benefits

Short Term Employee Benefits are accounted for in the period during which the services have been rendered.

Post-employment benefits and other long term employee benefits

Provident Fund: Retirement benefit in the form of provident fund is a defined contribution scheme. The contributions to the provident fund administered by the Central Government under the Provident Fund Act, 1952, are charged to the consolidated statement of profit and loss for the year in which the contributions are due. The Group has no obligation, other than the contribution payable to the provident fund. If the contribution payable to the scheme for service received before the consolidated balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the consolidated balance sheet date, then excess is recognized as an asset to the extent that the pre-payment will lead to a reduction in future payment.

Gratuity: The Group operates a defined benefit gratuity plan in India, which requires contributions to be made to a separately administered fund. The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method.

Remeasurements, comprising mainly of actuarial gains and losses, are recognised immediately in the consolidated balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to the consolidated statement of profit and loss in subsequent periods.

Leave Encashment: The Group operates a long-term leave encashment plan in India. Accrued liability for leave encashment including sick leave is determined on actuarial valuation basis using Projected Unit Credit (PUC) Method at the end of the year and provided completely in profit and loss account as per Ind AS - 19 "Employee Benefits".

r. Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

All financial assets, excluding trade receivables are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Trade receivables that do not contain a significant financing component are measured at transaction price.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Debt instruments at amortised cost
- Debt instruments at fair value through other comprehensive income (FVTOCI)
- Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL)
- Equity instruments measured at FVTOCI and FVTPL

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model, whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount

or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the consolidated statement of profit and loss. The losses arising from impairment are recognised in the consolidated statement of profit and loss.

Debt instrument at FVTOCI

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). On de-recognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to the consolidated statement of profit and loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt instrument at FVTPL

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the consolidated statement of profit and loss.

Equity instruments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Group decides to classify the same either as at FVTOCI or FVTPL. The Group makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Group decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to the consolidated statement of profit and loss, even on sale of investment. However, the Group may transfer the cumulative gain or loss within equity.

De-recognition

A financial asset is primarily derecognised when:

- The rights to receive cash flows from the asset have expired, or
- The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Impairment of financial assets

In accordance with Ind AS 109, the Group applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, trade receivables and bank balances
- Financial guarantee contracts which are not measured at FVTPL
- Lease receivables under Ind AS 116

The Group follows 'simplified approach' for recognition of impairment loss allowance on trade receivables that do not contain a significant financing component.

The application of simplified approach does not require the Group to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Group determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider

- All contractual terms of the financial instrument (including prepayment, extension, call and similar options) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument.
- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/ expense in the consolidated statement of profit and loss. This amount is reflected under the head 'other expenses' in the consolidated statement of profit and loss.

Financial assets measured at amortised cost: ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets in the consolidated balance sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the Group does not reduce impairment allowance from the gross carrying amount.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings or payables, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities include trade and other payables, loans and borrowings including derivative financial instruments.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the consolidated statement of profit and loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/ loss are not subsequently transferred to the consolidated statement of profit and loss. However, the Group may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the consolidated statement of profit and loss. The Group has not designated any financial liability as at fair value through profit and loss.

Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in the consolidated statement of profit and loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the consolidated statement of profit and loss.

This category generally applies to borrowings from banks.

Financial guarantee contracts

Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee.

Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognised less cumulative amortisation.

Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid as per agreed terms. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the consolidated statement of profit and loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

Derivative financial instrument - Initial recognition and subsequent measurement

Derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to the consolidated statement of profit and loss.

s. Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting preference dividends and attributable taxes) by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

t. Cash flow statement

The consolidated cash flow statement is prepared in accordance with the Indirect method. Consolidated Cash Flow Statement presents the cash flows by operating, financing and investing activities of the Group. Operating cash flows are arrived by adjusting profit or loss before tax for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments, and items of income or expense associated with investing or financing cash flows.

For the purpose of Consolidated Cash flow statement, cash and cash equivalents consist of cash on hand and balances with banks in current accounts and short-term deposits with an original maturity of three months or less, and excludes balances maintained in cash credit accounts, as they are not considered to be an integral part of the Group's cash management.

u. Cash and cash equivalents

Cash and cash equivalent in the consolidated balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

v. Cash dividends to equity holders

Annual dividend distribution to the shareholders is recognised as a liability in the period in which the dividend is approved by the shareholders. Any interim dividend paid is recognised on approval by Board of Directors. Dividend payable / paid, is recognised directly in equity.

w. Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to Chief Operating Decision Maker.

Vice Chairperson and Managing Director, Executive Director, President and Chief Financial Officer have been identified as Chief Operating Decision Maker. Refer note 50 for segment information.

x. Research and Development

Expenditure on research activities is recognised in the Consolidated Statement of Profit and Loss as incurred. Development expenditure is capitalised as part of the cost of the resulting intangible asset only if the expenditure can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and the Company intends to and has sufficient resources to complete the development and to use or sell the asset. Otherwise, it is recognised in the Consolidated Statement of Profit and Loss as incurred.

Subsequent to the initial recognition, the asset is measured at cost less accumulated amortisation and accumulated impairment losses, if any.

y. Business combinations

Business combinations are accounted for using the acquisition method. At the acquisition date, identifiable assets acquired and liabilities assumed are measured at fair value. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition date fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable. The consideration transferred is measured at fair value at acquisition date and includes the fair

value of any contingent consideration. Contingent consideration (earn out) is remeasured at fair value at each reporting date and changes in the fair value of the contingent consideration are recognised in the Statement of Profit and Loss. However, deferred tax asset or liability and any liability or asset relating to employee benefit arrangements arising from a business combination are measured and recognised in accordance with the requirements of Ind AS 12, Income Taxes and Ind AS 19, Employee Benefits, respectively.

Where the consideration transferred exceeds the fair value of the net identifiable assets acquired and liabilities assumed, the excess is recorded as goodwill. Alternatively, in case of a bargain purchase wherein the consideration transferred is lower than the fair value of the net identifiable assets acquired and liabilities assumed, the Company after assessing fair value of all identified assets and liabilities, record the difference as a gain in other comprehensive income and accumulate the gain in equity as capital reserve. The costs of acquisition excluding those relating to issue of equity or debt securities are charged to the Statement of Profit and Loss in the period in which they are incurred.

In case of business combinations involving entities under common control, the above policy does not apply. Business combinations involving entities under common control are accounted by using the pooling of interests method. The net assets of the transferor entity or business are accounted at their carrying amounts on the date of the acquisition subject to necessary adjustments required to harmonise accounting policies. Any excess or shortfall of the consideration paid over the share capital of transferor entity or business is recognised as capital reserve under equity.

4. Key accounting estimates, judgements and assumptions

The preparation of the consolidated financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

a. Defined benefit plans and other long-term benefit plan

The cost and present value of the defined benefit gratuity plan and leave encashment (other long-term benefit plan) are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation and other long term benefits are highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

b. Useful lives of depreciable and amortisable assets

Management reviews the useful lives of depreciable and amortisable assets at each reporting date, based on the expected utility of the assets to the Group.

c. Leases

Ind AS 116 requires lessees to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Group makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Group considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the importance of the underlying asset to Group's operations taking into account the location of the underlying asset and the availability of suitable alternatives.

5. Standards and recent pronouncements issued but not yet effective

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 31, 2023, MCA amended the Companies

(Indian Accounting Standards) Rules, 2015 by issuing the Companies (Indian Accounting Standards) Amendment Rules, 2023, applicable from April 1, 2023, as below:

Ind AS 1 – Presentation of Financial Statements

The amendments require companies to disclose their material accounting policies rather than their significant accounting policies. Accounting policy information, together with other information, is material when it can reasonably be expected to influence decisions of primary users of general purpose financial statements.

Ind AS 12 – Income Taxes

The amendments clarify how companies account for deferred tax on transactions such as leases and decommissioning obligations. The amendments narrowed the scope of the recognition exemption in paragraphs 15 and 24 of Ind AS 12 (recognition exemption) so that it no longer applies to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences.

Ind AS 8 – Accounting Policies, Changes in Accounting Estimates and Errors

The amendments will help entities to distinguish between accounting policies and accounting estimates. The definition of a change in accounting estimates has been replaced with a definition of accounting estimates. Under the new definition, accounting estimates are "monetary amounts in financial statements that are subject to measurement uncertainty". Entities develop accounting estimates if accounting policies require items in financial statements to be measured in a way that involves measurement uncertainty.

The Group is in the process of evaluating the impact of these amendments on the financial statements.

Nature and purpose of reserves

Securities premium

The amount received in excess of face value of the equity shares, net off issue expenses, is recognised in the securities premium. This reserve will be utilised in accordance with the provisions of Section 52 of the Companies Act, 2013 ("the Act").

Capital reserve

The excess of net assets taken, over the consideration paid, as part of the business combinations have been recorded under the capital reserve during the earlier years.

Capital redemption reserve

Capital redemption reserve was created on buy back of equity shares in the earlier years. The Company uses capital redemption reserve in accordance with the provisions of the Act.

Warrants money appropriated

Warrants money appropriated represents forfeiture of share application money made during the earlier years.

General reserve

The reserve has arisen on transfer of a portion of the net profit pursuant to the provisions of the erstwhile Companies Act, 1956. Mandatory transfer to general reserve is not required under the Act.

Changes in fair value of equity instruments

This represents the cumulative gains and losses arising on the fair valuation of equity instruments measured at FVTOCI, under an irrevocable option, net of amounts reclassified to retained earnings when such assets are disposed off.

Retained earnings

Retained earnings are the profits that the Company has earned till date, less any transfers to general reserve, dividends or other distribution to the shareholders.

The Group's principal financial liabilities comprises of borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Group's operations. The Group's principal financial assets include investments in equity shares, loans, trade and other receivables, and cash and cash equivalents that the Group derives directly from its operations.

The Group is exposed primarily to Credit risk, Liquidity risk and Market risk (fluctuations in interest rates, foreign currency rates, and prices of equity instruments), which may adversely impact the fair value of its financial instruments. The Group assesses the unpredictability of the financial environment and seeks to mitigate potential adverse effects on the financial performance of the Group.

Summary of the significant accounting policies and other explanatory information

(All amounts in ₹ millions, except share data and where otherwise stated)

A. Credit risk

Credit risk is the risk that the counterparty shall not meet its obligations under a financial instrument or customer contract, leading to a financial loss. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of the creditworthiness as well as concentration of risks. Credit risk arises primarily from financial assets such as trade receivables, investment in equity shares, balances with banks, loans and other receivables.

Credit risk is controlled by analyzing credit limits and creditworthiness of the customers on a continuous basis to whom credits have been granted after obtaining necessary approvals. Financial instruments that are subject to concentration of credit risk principally consist of trade receivables, investments, cash and cash equivalents, bank deposits and other financial assets. None of the financial instruments of the Group result in material concentration of credit risk.

Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk was ₹634.20 and ₹654.63 as of 31 March 2023 and 31 March 2022 respectively, representing carrying amount of all financial assets with the Group.

Financial assets that are neither past due nor impaired

None of the Group's cash equivalents, including fixed deposits, were either past due or impaired as at 31 March 2023 and 31 March 2022. The Group has diversified its portfolio of investment in cash and cash equivalents and term deposits with various banks which have secure credit ratings hence the risk is reduced. Concentration of exposures are actively monitored by the finance department of the Holding Company.

Financial assets that are past due but not impaired

The Group's credit period for customers generally ranges from 0 - 30 days. The aging of trade receivables, net of those provided for in the books of account, is given below:

	31 March 2023	31 March 2022
0-30 days	202.95	168.24
31-60 days	59.58	16.56
61-90 days	9.89	-
Greater than 90 days	7.64	-
	280.06	184.80

Ind AS requires expected credit losses to be measured through a loss allowance. The Group assesses at each date of Balance Sheet whether a financial asset or a group of financial assets are impaired. Expected credit losses are measured at an amount equal to 12 months expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial assets have increased significantly since the initial recognition. The Group has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and is adjusted for forward-looking information. Based on such data, loss on collection of receivable is not material, hence no additional provision considered.

B. Liquidity risk

Liquidity risk refers to the risk that the Group cannot meet its financial obligations as and when they become due. The objective of liquidity risk management is to maintain sufficient liquidity and to ensure that funds are available for meeting due obligations of the Group. The Group manages liquidity risk by maintaining adequate reserves, banking facilities, continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of the financial assets and financial liabilities.

Represents loan amount outstanding to the bankers by the joint venture, against which financial guarantees were extended by the Holding Company as at 31 March 2023 and 31 March 2022.

C. Market risk

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from adverse changes in the market rates and prices. Market risk is attributable to all market risk-sensitive financial instruments, all foreign currency receivables and payables and all short-term and long-term borrowings. Market risk comprises three types of risk: interest rate risk, currency risk and other price risks such as equity price risk.

i. Interest risk:

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument shall fluctuate because of changes in the market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's long-term obligations with floating interest rates. The impact on account of change in interest rate on the Company's long-term obligations is not considered as significant.

ii. Foreign currency risk:

Foreign currency risk is the risk that the fair value or future cash flows of an exposure shall fluctuate because of changes in foreign exchange rates. The Group's exposure to the risk of changes in foreign exchange rates relates primarily to the Group's operating and investing activities (when revenue or expense including capital expenditure is denominated in a foreign currency). The exposure of foreign currency risk to the Group is low as it enters very limited transactions in foreign currencies and accordingly any impact on account of change in the exchange rate is not considered as significant.

The carrying amounts of the Group's unhedged foreign currency denominated monetary items in ₹ terms as at 31 March 2023 and 31 March 2022 are as follows:

Financial liabilities- Capital creditors

	31 March 2023	31 March 2022
- EURO	-	2.65

iii. Equity price risk:

The Group's listed and non-listed equity securities are susceptible to market price risk arising from uncertainties about future values of the investment securities. The Group manages the equity price risk through diversification and by placing limits on individual and total equity instruments. Reports on the equity portfolio are submitted to the Group's senior management on a regular basis. The Group's Board of Directors reviews and approves all equity investment decisions. At the reporting date, the exposure to unlisted equity securities at fair value was ₹2.60 (31 March 2022: ₹2.60). The impact on account of change in the assumptions are not considered as significant.

39. Capital risk management

For the purpose of the Group's capital management, capital includes issued equity capital, share premium and all other reserves attributable to the equity holders. The primary objective of the Group's capital management is to maximise the shareholder value.

The Group manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Group may adjust the dividend payments to shareholders, return capital to shareholders or issue new shares. The Group monitors capital using a gearing ratio, which is net debt divided by total equity plus net debt. The Group's policy is to keep the gearing ratio up to 35%. The Group includes within net debt, borrowings from banks less cash and cash equivalents. Borrowings from banks comprise of term loans and loans repayable on demand.

	31 March 2023	31 March 2022
Borrowings from banks	1,322.40	79.69
Less: Cash and cash equivalents	(163.36)	(331.11)
Net debt (A)	1,159.04	(251.42)
Total equity (B)	7,258.67	6,575.54
Net debt and total equity (A) + (B)	8,417.71	6,324.12
Gearing ratio (%)	13.77%	0.00%

In order to achieve this overall objective, the Group's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the borrowings. Breaches in meeting the financial covenants would permit the lenders to immediately call back the borrowings. There was no breach in the financial covenants of any borrowings during the year ended 31 March 2023 and 31 March 2022.

No changes were made in the objectives, policies or processes for managing capital during the years ended 31 March 2023 and 31 March 2022.

49. Interest in an immaterial associate

The Group has interest in a single associate ("SKIL"), which, in the opinion of the Holding Company's Board of Directors, is immaterial to the Group. The Group's share in loss after tax and other comprehensive income for the year is ₹ 0.01 (31 March 2022) : Nil) and ₹ 0.01 (31 March 2022 : Nil) respectively in respect of such associate.

50. Segment reporting

The Chief Operating Decision Maker ("CODM") evaluates the Group's performance and allocates the resources based on an analysis of various performance indicators by reportable segments.

The measurement of each segment's revenue, expenses, assets and liabilities is consistent with the accounting policies that are used in preparation of the Group's consolidated financial statements.

The Group has been organised into different verticals based on its products. Three verticals have been identified as reportable operating segments by the Group, which are as follows:

(i) Dairy vertical: Under this vertical, the Group manufactures and market a complete range of milk and milk products.

(ii) Renewable energy vertical: Under this vertical, the Group produces power for captive consumption through its solar and wind power plants.

(iii) Feed vertical: Under this vertical, the Group manufactures wide varieties of cattle and fish feeds.

No operating segments have been aggregated to form the above reportable segments.

Segment performance is evaluated based on revenue and earnings before interest and tax and is measured consistently in line with the measurement principles used in the financial statements, except adjustments not made to operating segments on individual basis. The items which are not allocated to individual operating segments are gains or losses on financial instruments, taxes, impairment on financial instruments, finance costs, interest income among others. Refer reconciliation below for further details.

The table below presents segment wise information of revenue, results, assets and liabilities:
